John Quincy Adams Yankee Nationalist:

John Quincy Adams Paul E. Teed, 2006 By the standards that historians usually use to judge presidents John Quincy Adams was a failure Although better qualified for the office than any American of his generation he served for only one term and was unable to accomplish any of the most cherished goals set forth so boldly at the beginning of his presidency His election to the presidency in 1824 was itself fraught with controversy and charges of political corruption and he was soundly defeated in his bid for re election by Andrew Jackson To many contemporaries and even some historians Adams has appeared completely out of touch with the democratic revolution that was transforming American life at the time He seemed a relic of a discredited eighteenth century political world Yet John Quincy Adams has not shared the fate of other presidential failures who have faded almost entirely from the national memory *The American Presidents, Washington to Tyler* Robert A. Nowlan, 2014-01-10 As of 2012 only 43 men have held the office of the President of the United States Some have been sanctified and some reviled This historical work addresses the careers of the first ten presidents men who made vital contributions not only to the office of the presidency but to the course of the fledgling nation From Washington through Tyler every term is recounted in detail and each presidential profile provides as many as a hundred quotations with full source notes by the president his friends family historians and others Each profile ends with an extensive bibliography of books about the president his principles and policies and also provides suggestion for further reading Rigorously nonpartisan in approach this detail rich text describes the early years of what may well be one of the most demanding jobs in the world

Presidents and Presidencies in American History Jolyon P. Girard, 2019-10-07 This innovative encyclopedia explores the life and times of America's forty five presidents from the first administration to that of Donald Trump Forty five men have served as President of the United States since George Washington swore the oath of office in 1789 in New York City Some have proved exceptional leaders and others have not Some have faced serious crises both foreign and domestic Franklin Roosevelt was elected to four terms leading the country through a major economic depression and a world war while one held the office for only a single month Each however played a key role in the evolution of United States history Each of their histories therefore remains a critical civics lesson to consider This four volume encyclopedia provides an expansive analysis of the life and times of each United States president in chronological order from George Washington to Donald Trump Each chapter includes a timeline a biographical sketch a historical overview and an analytical essay concerning the president and his presidency Each also includes a substantial selection of related primary documents presenting important presidential speeches and correspondence A suggested reading list for further study of each president rounds out each entry

Recarving Rushmore Ivan Eland, 2014-10-01 Who were the best and worst U S presidents In the past when historians and scholars have rated the presidents their evaluations often have been based on individual charisma activism and service during periods of crisis Taking a distinctly new approach in *Recarving Rushmore* Ivan Eland profiles each U S president from

Washington to Obama on the merits of his policies and whether those strategies contributed to peace prosperity and liberty This ranking system is based on how effective each president was in fulfilling his oath to uphold the Constitution Contrary to the preferences of modern conservatives and liberals this oath was intended to limit the role of the federal government Readers will be intrigued to discover why of the four men given exalted representations on Mount Rushmore only Washington deserves the honor They will learn why Teddy Roosevelt has been overrated why Jefferson hypocritically violated his lofty rhetoric of liberty and why Lincoln provoked a civil war that achieved far less than believed Readers will uncover why some presidents are rated much higher than the conventional wisdom for example Warren Harding and some rank much lower for example Harry Truman As for more modern U S chief executives Republicans will be astounded to learn that Nixon was the last liberal president and that Reagan wasn't all that conservative Democrats will be amazed to learn that Clinton was in some respects more conservative than George W Bush and why both Obama and Bush are ranked as bad Readers will learn why the author goes against the grain and anoints Eisenhower and Carter as the two best modern presidents

Revolutionary Prophecies Robert M. S. McDonald, Peter S. Onuf, 2021-02-05 The America of the early republic was built on an experiment a hopeful prophecy that would only be fulfilled if an enlightened people could find its way through its past and into a future Americans recognized that its promises would only be fully redeemed at a future date In *Revolutionary Prophecies* renowned historians Robert M S McDonald and Peter S Onuf summon a diverse cast of characters from the founding generation all of whom in different ways reveal how their understanding of the past and present shaped hopes ambitions and anxieties for or about the future The essays in this wide ranging volume explore the historical consciousness of Americans caught up in the Revolution and its aftermath By focusing on how various individuals and groups envisioned their future the contributors show that revolutionary Americans knew they were making choices that would redirect the course of human events Looking at prominent leaders such as Washington Adams Franklin Hamilton Madison and Monroe as well as more common people from backcountry rebels and American Indians to printer Isaiah Thomas the authors illuminate the range and complexity of the ways in which men and women of the founding generation imagined their future and made our history

The Road to Disunion William W. Freehling, 1990 Far from a monolithic block of diehard slave states the antebellum South was in William Freehling's words a world so lushly various as to be a storyteller's dream It was a world where Deep South cotton planters clashed with South Carolina rice growers as Northern egalitarianism infiltrated border states already bitterly divided on key issues It was the world of Jefferson Davis John C Calhoun Andrew Jackson and Thomas Jefferson and also of Gullah Jack Nat Turner and Frederick Douglass Now in the first volume of his long awaited monumental study of the South's road to disunion historian William Freehling offers a sweeping political and social history of the antebellum South from 1776 to 1854 All the dramatic events leading to secession are here the Missouri Compromise the Nullification Controversy the Gag Rule the Annexation of Texas the Compromise of 1850 and the Kansas Nebraska Act Vivid

accounts of each crisis reveal the surprising extent to which slavery influenced national politics before 1850 and provide important reinterpretations of American republicanism Jeffersonian states rights Jacksonian democracy and the causes of the American Civil War Freehling s brilliant historical insights illustrate a work of rich social observation In the cities of the Antebellum South in the big house of a typical plantation we feel anew the tensions between the slaveowner and his family poor whites and planters the Old and New Souths and most powerfully between slave and master Freehling has evoked the Old South in all its color cruelty and diversity It is a memorable portrait certain to be a key analysis of this crucial era in American history President Zachary Taylor Elbert B. Smith,2011 Zachary Taylor 24 November 1784 9 July 1850 was an American military leader and the twelfth President of the United States Taylor s short Presidency was shadowed by the issue that was then dominating all aspects of American national affairs that of slavery Taylor s brief term in the White House also featured the still on going question of balancing power between the Congress and the presidency This book provides a concise biography of President Zachary Taylor detailing the issues which plagued his time in office as well as the manner in which he handled these issues and famously asserted his authority as a political leader Franklin Delano Roosevelt, Preserver of Spirit and Hope Barbara Bennett Peterson,2006 Franklin Delano Roosevelt was the thirty second president of the United States and served four consecutive terms the longest presidential administration in American history His resilience forbearance and superb political abilities establish Roosevelt as one of America s greatest leaders and he has been called the greatest president of the twentieth century for restoring confidence following the onset of the Great Depression and for winning World War II In both domestic and foreign policy FDR was an improviser rather than an ideologue Politically skilled from his days as a member of the New York senate and then as the Empire state s Governor he was elected to the presidency in 1932 1936 1940 and 1944 a testament to how his personal charm and astute New Deal programs resonated with Americans FDR was truly a national president who became an international leader and did not succumb to regionalism but united the continent President Roosevelt became the most influential leader in the world in his lifetime This book explores the man s life all the way from his youth to his final days William Henry Harrison Mary Jane Child Queen,2007 A lone lanky soldier sat at a hand hewn table hunched over a note pad and a few worn books quite oblivious of the boisterous men around him This was often the scene at Fort Washington in the fall and winter of 1791 At the age of 18 Ensign William Henry Harrison had arrived at General St Clair s post Fort Washington expecting a well disciplined band of men Instead young Harrison recently sent from Fort Pitt was shocked at the condition Just before his arrival with his eighty recruits there had been a major Indian attack Seven hundred soldiers had been killed and about one third of them scalped Women and children had been brutally murdered other women and children taken for slavery or adoption into the tribe General St Clair had been wounded Under young Harrison s direction the arms and supplies were replaced and soon after the fort was back in the same old routine The idle soldiers under a recovered St Clair were again indulging in heavy drinking petty fighting and

even duelling Harrison decided then and there that he would spend his time studying military history battle strategy and literature No wasteful destructive behaviour for him but self improvement of character and education in his chosen career The event best illustrates the mark of the man A gentleman from Virginia of honour and dedicated to duty William Henry Harrison rose above all other men to become the ninth president of the United States of America *The Shaping of the American Past* Robert Lloyd Kelley,1990 An interpretive history of the US from colonial times to the present Emphasizes both political history with solid coverage of social history *The Shaping of the American Past: To 1877* Robert Lloyd Kelley,1982

James Madison Donald Odell Dewey,Barbara Bennett Peterson,2011 Follows the life of James Madison our 4th president who at the tender age of twenty five was thrust into significant politics as an elected member of the Virginia House of Burgesses **William H. Taft** Richard G. Frederick,2010 William Howard Taft 15 September 1857 8 March 1930 was the 27th President of the United States and later the 10th Chief Justice of the United States He is the only person to have served in both offices Riding a wave of popular support of President and fellow Republican Theodore Roosevelt Taft won an easy victory in his 1908 bid for the presidency In his first and only term President Taft s domestic agenda emphasised trust busting civil service reform strengthening the Interstate Commerce Commission improving the performance of the postal service and passage of the Sixteenth Amendment This book will take you through the voyage of Taft s Presidency and life in view of that prestigious appointment **Thomas Jefferson** David Kiracofe,2008 This book offers information on the President s early education professional career military service or political service prior to the presidency Thomas Jefferson of Virginia was the first president to be inaugurated in Washington DC He wrote two of the most important documents in the history of the US The Declaration of Independence and the basis for the first amendment to the Constitution which guarantees freedom of religion and worship Although he was not a great public speaker his eloquent and powerful words carried a strong but silent voice He was a lover of books and his book collection over 6 000 books helped to start the Library of Congress He served for forty years in many different aspects In reading this biography you will see the various ways in which this great president influenced the USA **Bibliographic Index** ,2008 **Woodrow Wilson** Mary Stockwell,2008 While most biographers paint Woodrow Wilson as an uncompromising intellectual who failed to win America s entrance into the League of Nations Mary Stockwell s book portrays our 28th President as a man shaped first and foremost by his emotions and his imagination From the time he first played that he was a great hero chasing pirates on the imaginary seas of his childhood until he fell from grace along with his failed league Woodrow Wilson was above all else a romantic He believed if he could imagine the best possible future for all mankind then he need only sail forth toward it and surely everyone would follow him It was this spirit that led him first into the law then academics and finally politics This same spirit helped him craft a vision of democracy as a noble enterprise whose ideals must be practised in all phases of modern life To understand our world today we must understand the vision that made it To understand this vision we must seek out the man who first dream

it That man was Woodrow Wilson the last romantic to dream that a better world was possible simply by imagining it
