The Philosophy, Politics and Economics of Finance in the 21st Century Patrick O'Sullivan, Nigel Allington, Mark Esposito, 2015-04-10 Since 2008 the financial sector has been the subject of extensive criticism Much of this criticism has focused on the morality of the actors involved in the crisis and its extended aftermath This book analyses the key moral and political philosophical issues of the crisis and relates them to the political economy of finance It also examines to what extent the financial sector can or should be reformed This book is unified by the view that the financial sector had been a self serving and self regulating elite consumed by greed speculation and even lawlessness with little sense of responsibility to the wider society or common good In light of critical analysis by authors from a variety of backgrounds and persuasions suggestions for reform and improvement are proposed in some cases radical reform By placing the world of finance under a microscope this book analyses the assumptions that have led from hubris to disgrace as it provides suggestions for an improved society Rooted in philosophical reflection this book invites a critical reassessment of finance and its societal role in the 21st century This book will be of interest to academics politicians central bankers and financial regulators who wish to improve the morality of finance

Is GDP a good measure of economic activity and well being? Niels Aulich, 2012-06-01 Essay from the year 2012 in the subject Economics Micro economics grade A 70 Heriot Watt University Edinburgh School of Management and Languages language English abstract It is generally agreed today that a well known indicator to measure economic activities is the gross domestic product GDP Although the GDP is heavily discussed in science economics and politics it has emerged as particularly important for both economic assessment of countries and even for well being van den Bergh 2009 The main question which arises is Does the GDP illustrate a possibility to quantify economic activity and well being and thus can GDP compare countries with each other adequately This essay examines the topic Is GDP a good measure of economic activity and well being Give reasons for your answer What particular problems arise when comparing GDP across countries The structure of this paper refers to the key figure GDP The main body

is separated into two parts Firstly chapter 2 1 will consider GDP as a measurement of economic activity and well being Secondly section 2 2 will examine potential limitations to compare GDP across countries by stating arguments Finally the conclusion will abstract the main arguments and will give a firm stand **Commodity Trade and Finance** Michael Tamvakis,2015-04-10 What affects the supply of oil How important is the weather in determining grain prices Why has the price of copper skyrocketed This unique book analyses the economics of key commodity groups including energy agriculture and metals It examines the supply demand fundamentals of several major and minor commodities physical characteristics production and consumption patterns trade flows and pricing mechanisms It also explains the main tools used to hedge price risk such as futures options and swaps This second edition has been fully revised and restructured and contains four new chapters including oil refining electricity and price risk management for energy metals and agricultural commodities This book is an indispensable reference text for students academics and those working in the commodity business

**Protectionist Measures within the Japanese Agricultural Sector** Remi Bauer,2013-12-27 Seminar paper from the year 2009 in the subject Economics Case Scenarios grade 1 3 Cologne Business School K In language English abstract In its latest White Paper on International Economy and Trade 2009 the Japanese Ministry of Economy Trade and Industry listed prevention of protectionism as one of its courses for Domestic and foreign integrated economic measures Ministry of Economy Trade and Industry 2009 With 153 member states in the World Trade Organization formerly known as General Agreement on Tariffs and Trade which is a multilateral institution that liberalizes trade establishes trade agreements and solves trade disputes one might think that protectionism should not be a problem in the 21st century Gabler Verlag 2009b Japan joined the General Agreement on Tariffs and Trade in 1955 and is still a member of the World Trade Organization today However the government of this nation still feels the necessity to state deterrence of protectionist measures in a paper which was only published in June 2009 World Trade Organization 2009a Thus the question arises how important is protectionism for Japan nowadays This question will be answered by explaining protectionist measures and looking at the historical development of such measures in Japan since 1945 in the agricultural sector The agricultural sector is interesting since Japan s agricultural imports accounted to over 50 billion in 2008 After the United States of America and the European Union Japan is the third largest importer of agricultural goods Based on total calories consumed Japan imports about 60 per cent of its food sources annually United States Department of Agriculture Economic Research Service 2009a By evaluating official government sources the current situation is assessed and the effects of protectionist measures on imports by focusing on the agricultural sector will be elaborated Pre-vocational Education in Germany and China Jun Li,2012-12-02 The school to work transition has been an important topic in the fields of education and sociology research in the past few years Pre vocational education which takes place during lower secondary school and aims to facilitate the school to work transition is of critical significance in introducing the participants to the world of work and or in preparing them for entry into further

vocational education programs With a strong comparative nature Jun Li presents this systematic investigation of the pre vocational education in Germany and China and analyzes their curricula of pre vocational education By combining the methods of content analysis and teacher interview the author offers an in depth perspective into the realms of pre vocational education and reveals the divergences between the prescribed curriculum and the enacted curriculum The findings also relate closely to an intensively discussed issue in the sociology of education in the past few years namely the issue of knowledge and its status function and forms in the school education today      *Funding Higher Education in Sub-Saharan*
