Distinct Identities Nadia E. Brown, Sarah Allen Gershon, 2016-04-14. Minority women in the United States draw from their unique personal experiences born of their identities to impact American politics. Whether as political elites or as average citizens, minority women demonstrate that they have a unique voice that more often than not centers on their visions of justice, equality, and fairness. In this volume, Dr. Nadia E. Brown and Sarah Allen Gershon seek to present studies of minority women that highlight how they are similar and dissimilar to other groups of women or minorities as well as variations within groups of minority women. Current demographic and political trends suggest that minority populations, specifically minority women, will be at the forefront of shaping U.S. politics. Yet scholars still have very little understanding of how these populations will behave politically. This book provides a detailed view of how minority women will utilize their sheer numbers, collective voting behavior, policy preferences, and roles as elected officials to impact American politics. The scholarship on intersectionality in this volume seeks to push beyond disciplinary constraints to think more holistically about the politics of identity.

The Living Politics of Self-Help Movements in East Asia Tom Cliff,Tessa Morris-Suzuki,Shuge Wei,2017-12-04 This collection elucidates the complexity of living politics in the 21st century considering how self help groups draw on shared regional traditions and how they adapt their actions to the diverse formal political environments in which they operate It considers the nexus between ideas and action in a world where the conventional right left divide has a decreasing hold on the political imagination Examining grassroots self help actions as responses to everyday life problems it argues that whilst action may be initiated by encounters with ideas that come into the community from outside often the flow of cause and effect works in the opposite direction Focusing on countries both politically dynamic and with long standing historical and cultural connections China including Inner Mongolia Japan Taiwan and Korea this book fills a significant gap in the literature on social movements demonstrating that survival itself is a political act
