

Name: _____

Magnets: Field and Poles

Magnetic fields give magnets their ability to "stick" to magnetic metals. Magnets have poles...a North pole and a South pole. Two like poles will attract. Two opposite poles will retract.

Directions: Hold two magnets together.

1. What happens when you place two opposite poles together?

2. What happens when you place two like poles together?

3. Write ATTRACT or REPEL under the correct pictures.

4. Play with the magnetic field. Place a bar magnet under a paper. Place a handful of iron filings onto the paper, above the bar magnet. Draw what you see.

Magnets And Magnetic Fields Concept Review Answer

Didier Musso

Magnets And Magnetic Fields Concept Review Answer:

Delve into the emotional tapestry woven by Emotional Journey with in Dive into the Emotion of **Magnets And Magnetic Fields Concept Review Answer** . This ebook, available for download in a PDF format (Download in PDF: *), is more than just words on a page; itis a journey of connection and profound emotion.
