Putney,2004 American air power is a dominant force in today s world Its ascendancy evolving in the half century since the
end of World War II became evident during the first Gulf War Although a great deal has been written about military
operations in Desert Shield and Desert Storm this deeply researched volume by Dr Diane Putney probes the little known
story of how the Gulf War air campaign plan came to fruition Based on archival documentation and interviews with USAF
planners this work takes the reader into the planning cells where the difficult work of building an air campaign plan was
accomplished on an around the clock basis The tension among air planners is palpable as Dr Putney traces the incremental
progress and friction along the way The author places the complexities of the planning process within the context of coalition
objectives All the major players are here President George H W Bush General H Norman Schwarzkopf General Colin Powell
General Chuck Horner and Secretary of Defense Richard Cheney The air planning process generated much debate and
friction but resulted in great success a 43 day conflict with minimum casualties Dr Putney s rendering of this behind the
scenes evolution of the planning process in its complexity and even suspense provides a fascinating window into how wars
are planned and fought today and what might be the implications for the future C R Anderegg Director of Air Force History
