## **Memoirs Of A Woman Doctor:**

Memoirs of a Woman Doctor Nawaal Sadaawia, 2014-05-22 A young Egyptian woman clashes with her traditional family when she chooses a career in medicine Rather than submit to an arranged marriage and motherhood she cuts her hair short and works fiercely to realise her dreams At medical school she begins to understand the mysteries of the human body After years of denying her own desires the doctor begins a series of love affairs that allow her to explore her sexuality on her own terms Written in her twenties when Nawal El Saadawi was studying in Cairo *Memoirs of a Woman Doctor* is the searing coming of age story of a woman striving for freedom in a male dominated world This classic feminist novel remains as thought provoking today as when it was first published *Memoirs of a Woman Doctor* Nawal El Saadawi, 1989-01-01

Rebelling against the constraints of family and society a young Egyptian woman decides to study medicine becoming the only woman in a class of men Her encounters with the other students as well as the male and female corpses in the autopsy room

*Reading Arab Women's Autobiographies* Nawar Al-Hassan Golley, 2010-01-01 Authors of autobiographies are always engaged in creating a self to present to their readers This process of self creation raises a number of intriguing questions why and how does anyone choose to present herself or himself in an autobiography Do women and men represent themselves in different ways and if so why How do differences in culture affect the writing of autobiography in various parts of the world This book tackles these questions through a close examination of Arab women's autobiographical writings Nawar Al Hassan Golley applies a variety of western critical theories including Marxism colonial discourse feminism and narrative theory to the autobiographies of Huda Shaarawi Fadwa Tuqan Nawal el Saadawi and others to demonstrate what these critical methodologies can reveal about Arab women's writing At the same time she also interrogates these theories against the chosen texts to see how adequate or appropriate these models are for analyzing texts from other cultures This two fold investigation sheds important new light on how the writers or editors of Arab women's autobiographies have written documented presented and organized their texts The Evolution of a Psychiatrist Beulah Parker, 1987

**Men, Women, and God(s)** Fedwa Malti-Douglas, 1995-01-01 An impressive and erudite book that offers significant interpretations of the work of one of the most important writers of the international community Susan Jeffords University of Washington An impressive and erudite book that offers significant interpretations of the work of one of the most important writers of the international community Susan Jeffords University of Washington *As Long as Life* Mary Canaga Rowland, 1996 The author describes her life as one of the first women physicians practicing in the Old West **The Evolution of a Psychiatrist** Beulah Parker, 1987 **Women Aren't Supposed to Fly** Harriet Hall, 2008-03-24 When Harriet Hall graduated from medical school in 1970 and entered the Air Force she was in a distinct minority As the second woman ever to do an Air Force internship she had to fight for acceptance Even a patient's 3 year old daughter proclaimed Oh Daddy That's not a doctor that's a lady She was refused a residency paid less than her male counterparts couldn't live on base and couldn't claim her

husband as a dependent because he wasn't a wife. After six years as a general medical officer in Franco's Spain, she became a family practice specialist and a flight surgeon doing everything from delivering babies to flying a B-52. She earned her pilot's license despite being told women aren't supposed to fly and eventually retired from the Air Force as a full colonel. She is a witness to an era when society was beginning to accept women in traditionally male jobs but didn't entirely like the idea yet. A somewhat warped sense of humor kept her afloat, and it spices the stories she tells about her own experiences and the patients and colleagues she encountered.

*As Long as Life* Mary Canaga Rowland, 1994 Not only was Dr. Mary Canaga Rowland one of the first woman doctors in America, she was one of the few who practiced in the rough and tumble world of the Wild West. This is the fascinating autobiography of one woman's unique life as pioneer physician and single mother at the turn of the century.

*The Life of a Russian Woman Doctor* Anna Bek, 2004-11-10 The story of an idealistic Russian woman doctor in pre and postrevolutionary Siberia.

**Memoir of an Iraqi Woman Doctor** Saniha Amin Zaki, 2015-05-07 As a girl of thirteen in Baghdad, Saniha Amin Zaki, whenever she was outside her house, was covered head to foot with a black robe and was accompanied by a member of her family. But at sixteen, she was enrolled in the Medical College, not wearing the veil and attending classes with male students. Six years later, she was Iraq's first Muslim female doctor. This courageous break with cultural tradition was the first independent step in her long, rich life. This is the fascinating personal account of a woman who grew up in Iraq in the 1920s, the early years of the country's freedom from the Ottoman Empire and British Mandate rule. She lived through the unsettled years of Iraq's development into a modern state with all its opposing factions and political upheavals, plots and betrayals. We learn of the intense discussions that took place within her circle of liberal-minded young friends, deeply concerned with social issues, and the political status quo among her friends were those who were tempted by the easy answers offered by Communism. Because the men of her family were part of the ruling class and the intelligentsia, she is able to give us unique insights into the growing clash between the British-backed monarchists and the underground communists who fomented the discontent that led to the murder of the royal family during the military coup of 1958. Seldom has such a fateful progression of a country from freedom to tyranny been revealed from this intimate point of view. Iraq's struggle to emerge from an almost medieval past to the optimistic and vibrant 1950s makes a riveting and immensely informative tale rich with cultural and historical detail. It is written with honesty and special sensitivity by an extraordinary woman who was at the forefront of the emergence of Arab women into modern public life.

**Diagnosing Empire** Narin Hassan, 2016-04-08 Examining the emerging figure of the woman doctor and her relationship to empire in Victorian culture, Narin Hassan traces both amateur and professional doctoring by British women travelers in colonial India and the Middle East. Hassan sets the scene by offering examples from Victorian novels that reveal the rise of the woman doctor as a fictional trope. Similarly, medical advice manuals by Victorian doctors aimed at families traveling overseas emphasized how women should maintain and manage healthy bodies in colonial locales. For Lucie Duff Gordon, Isabel Burton, Anna Leonowens, among

others doctoring natives secured them access to their private lives and cultural traditions Medical texts and travel guides produced by practicing women doctors like Mary Scharlieb illustrate the relationship between medical progress and colonialism They also helped support women s medical education in Britain and the colonies of India and the Middle East Colonial subjects themselves produced texts in response to colonial and medical reform and Hassan shows that a number of New Indian women including Krupabai Satthianadhan participated actively in the public sphere through their involvement in health reform In her epilogue Hassan considers the continuing tradition of women s autobiographical narrative inspired by travel and medical knowledge showing that in the twentieth and twenty first century memoirs of South Asian and Middle Eastern women doctors the problem of the Woman Question as shaped by medical discourses endures **Different Stars**

**for Different Times** Margaret W. Guthrie,2014 This autobiographical account traces the story of Dr Margaret Guthrie following her return to New Zealand in 1963 as a widowed mother of three children She describes her experiences as a medical officer in an Airforce Base and as New Zealand s first female medical superintendent of a major hospital in the 1970s Since the 1980s Margaret has been at the forefront of gerontology in New Zealand helping to plan the country s care for its elderly citizens through government voluntary and professional channels This book tells the story of the outstanding life and career of a sensitive and thoughtful woman doctor In 1997 Margaret was awarded a Companion of the New Zealand Order of Merit for Services to Gerontology **Woman Against Her Sex** Jūrj Ṭarābīshī,1988 This is a provocative critique of the work of the Egyptian feminist Nawal el Saadawi Tarabishi argues that the heroines of her novels far from being shining examples obliterated womanhood have unconsciously absorbed a male ideology that actually works against the interests of women Their revolt is not he claims the result of their oppression by men but of their connivance with their oppressor and their acceptance of his view of the world Saadawi s heroines are accused of elitism These doctors lawyers and medical students shunning the world of ordinary women show a distinct lack of solidarity with their sex They are not as they claim fighting a society which oppresses them but in reacting against the very fact of being women are struggling against nature Tarabishi proclaims that he is defending feminism against its false friends In a spirited reply Saadawi counters that his critique is based on a rigid and outmoded Freudian analysis Memoirs of a Highland Lady Elizabeth Grant,1899

Schrager M.D.,2006-06-20 Dr Gloria Schrager has written a revealing memoir about her struggle to become a doctor at a time when women physicians were an anomaly The era she has lived through has been incredibly eventful she relates how the Great Depression World War II the McCarthy Unamerican Activities Committee the overt bias and harassment that women in the professions had to face all impacted on her life But the memoir has a lighter side recounting some of the adventures and mishaps of medical school internship maintaining a successful marriage and raising a family while engaged in the full time practice of medicine Both of her sons as well as a niece and grandniece have become physicians and the book describes some the differences both good and bad between the practice of medicine today and how it was practiced over fifty years ago *Russia Through Women's Eyes* Toby W.
