Greening the Common Agricultural Policy Great Britain. Parliament. House of Commons. Environment, Food and Rural Affairs Committee, 2012 The European Commission proposes that 30% of direct payments made to farmers under the Common Agricultural Policy CAP would be conditional on compliance with three new greening measures While supporting the Commission's desire to improve the environment the EFRA Committee rejects the approach proposed Instead it calls for the EU to set high level objectives for the CAP that provide for flexibility to apply the right measures for local conditions through decentralising environmental protection under the CAP to Member States This report highlights the huge benefit that UK agri environment schemes have brought to biodiversity food production and the countryside The Committee also urged Defra to ensure that the UK's tenant farmers should not be excluded from these schemes The Committee concludes that Defra must ensure the balance of funding between mandatory and voluntary aspects of the CAP should not leave UK farmers at a competitive disadvantage relative to their counterparts in the rest of Europe MPs also warn that measures proposed by the Commission would be even more complex than the current system adding costly bureaucracy and generating more errors in the system Likewise the committee concludes that the Commission's crop diversification measure would in the UK have perverse consequences that are far less environmentally beneficial than crop rotation Of the three greening measures offered the Commission's proposal for Ecological Focus Areas EFA has the potential to deliver the greatest environmental benefit However the lack of definitions within the proposals make it difficult to assess what if any such benefits would actually be delivered
