Parliamentary Papers Great Britain. Parliament. House of Commons, 1911 A Cold War In The Soviet Bloc Sheldon Anderson, 2018-02-23 In *A Cold War in the Soviet Bloc* Sheldon Anderson uses recently declassified documents from Polish and East German communist party and foreign ministry archives to examine the interplay of national interests with the exigencies of communist party relations within the Soviet bloc during the Cold War Anderson explores how Polish East German relations were strained over the permanence of the Oder Neisse border the correct road to socialism German repatriation from Poland and trade policy he provides an inside account of the heated debates that seriously divided the Polish and East German communists Anderson delves into how and why the rift culminated in the return of the anti Stalinist Wladyslaw Gomulka in October 1956 and he delineates how the Polish East German conflict undermined the unity of the Soviet bloc on its most strategic flank In doing so he reveals the persistence of nationalism and ethnic prejudice in the former communist countries In this timely text Anderson pinpoints how nationalism has reemerged as a powerful political force following the end of the Cold War With *A Cold War in the Soviet Bloc* Anderson markedly fills the gap in the existing scholarship on postwar relations between the countries of East Europe *For the Good of the Farmer* Fred Whitford, 2013 The key role that farming plays in the economy of Indiana today owes much to the work of John Harrison Skinner 1874 1942 Skinner was a pioneering educator and administrator who transformed the study of agriculture at Purdue University during the first decades of the twentieth century From humble origins occupying one building and 150 acres at the start of his career the agriculture program grew to spread over ten buildings and 1 000 acres by the end of his tenure as its first dean A focused single minded man Skinner understood from his own background as a grain and stock farmer that growers could no longer rely on traditional methods in adapting to a rapidly changing technological and economic environment in which tractors were replacing horses and new crops such as alfalfa and soy were transforming the arable landscape Farmers needed education and only by hiring the best and brightest faculty could Purdue give them the competitive edge that they needed While he excelled as a manager and advocate for Indiana agriculture Skinner never lost touch with his own farming roots taking especial interest in animal husbandry During the course of his career as dean 1907 1939 the number of livestock on Purdue farms increased fourfold and Skinner showed his knowledge of breeding by winning many times at the International Livestock Exposition Today the scale of Purdue s College of Agriculture has increased to offer almost fifty programs to hundreds of students from all over the globe However at its base the agricultural program in place today remains largely as John Harrison Skinner built it responsive to Indiana but with its focus always on scientific innovation in the larger world *Special Report* , 1987 **Report of the Board of Education** Great Britain.
