intertwine into a timeless odyssey Poignant and profound *Legends of the North Cascades* brings Jonathan Evison's trademark vibrant honest voice to bear on an expansive story that is at once a meditation on the perils of isolation and an exploration of the ways that connection can save us *The Conclusion of My Confusion* Chantel Philogene, 2011 **The Girl Without a Name** Sandra Block, 2015-08-25 A gripping thriller featuring psychiatrist Zoe Goldman a smart heartbreakingly vulnerable and laugh out loud funny heroine Lisa Scottoline New York Times bestselling author In what passes for an ordinary day in a psych ward Dr Zoe Goldman is stumped when a highly unusual case arrives A young African American girl found wandering the streets of Buffalo in a catatonic state is brought in by police No one has come forward to claim her and all leads have been exhausted so Zoe's treatment is the last hope to discover the girl's identity When drugs prove ineffective and medical science seems to be failing Zoe takes matters into her own hands to track down Jane Doe's family and piece together their checkered history As she unearths their secrets she finds that monsters hide where they are least expected And now she must solve the mystery before it is too late Because someone wants to make sure this young girl never remembers *The Girl Without a Name* is a powerful novel of memory and forgetting of unexpected friendship and understanding and of the secrets we protect no matter the consequences What author Sandra Block does best is the incorporation of real psychiatry and therapy into the story Between Zoe's own treatment and her work at the hospital the book sometimes feels like a cross between TV's CSI and *House* a compelling realistic read Rifflebooks.com The mystery works due to the unusual setting and the strong empathetic lead character Booklist *Island Genres, Genre Islands* Ralph Crane, Lisa Fletcher, 2017-02-03 *Island Genres* *Genre Islands* moves the debate about literature and place onto new ground by exploring the island settings of bestsellers Through a focus on four key genres crime fiction thrillers popular romance fiction and fantasy fiction Crane and Fletcher show that genre is fundamental to both the textual representation of real and imagined islands and to actual knowledges and experiences of islands The book offers broad comparative readings of the significance of islandness in each of the four genres as well as detailed case studies of major authors and texts These include chapters on Agatha's Christie's islands the role of the island in *Bondspace* the romantic islophilia of Nora Roberts's *Three Sisters* Island series and the archipelagic geography of Ursula Le Guin's *Earthsea* Crane and Fletcher's book will appeal to specialists in literary studies and cultural geography as well as in island studies *Youth's Companion*, 1907 **The Beaver Manifesto** Glynnis Hood, 2011-07-26 Provocative passionate and populist RMB Manifestos are short and concise non fiction books of literary critical and cultural studies Beavers are the great comeback story a keystone species that survived ice ages major droughts the fur trade urbanization and near extinction Their ability to create and maintain aquatic habitats has endeared them to conservationists but puts the beavers at odds with urban and industrial expansion These conflicts reflect a dichotomy within our national identity We place environment and our concept of wilderness as a key touchstone for promotion and celebration while devoting significant financial and personal resources to combating the beaver problem We need to rethink our

approach to environmental conflict in general and our approach to species specific conflicts in particular Our history often celebrates our integration of environment into our identity but our actions often reveal an exploitation of environment and celebration of its subjugation Why the conflict with the beaver It is one of the few species that refuses to play by our rules and continues to modify environments to meet its own needs and the betterment of so many other species while at the same time showing humans that complete dominion over nature is not necessarily achievable
