 Education and Skills Committee,2007-03-27 There has been an increasing awareness over the past few decades of bullying  
 and the effect it has on the educational and social achievements of children and young people The Committee s report  
 examines the progress that has been made to address this problem since the introduction of the Don t Suffer in Silence pack  
 in 1994 the barriers that prevent schools from tackling bullying effectively issues of prejudice driven bullying including SEN  
 related homophobic and faith based bullying and cyber bullying The report finds that defining what bullying is and  
 identifying instances of bullying is the first potential barrier to successfully tackling the problem Teachers and staff pupils  
 and parents should all be aware of their school s definition of bullying and how this affects their own behaviour with the  
 attitude and engagement of head teachers vital to tackling bullying The focus of anti bullying guidance should be tackling  
 bullying behaviour and making it clear that such behaviour is not acceptable rather than attempting to change the behaviour  
 of the victim The DfES should issue new guidance to local authorities and schools on when the use of exclusion is appropriate  
 The lack of accurate reliable data on bullying is another barrier to more effective anti bullying work and the Government  
 should commission a long term study of a number of schools looking at both general trends in bullying and also the  
 effectiveness of different approaches in different circumstances The report also recommends that the Government needs to  
 foster a culture where schools are encouraged to be open about incidents of bullying have effective ways of dealing with  
 bullying when it occurs and provide support the victims of bullying rather than fearing reporting incidents of bullying will  
 damage their reputation     **Surviving and Thriving in the Secondary School** Susan Capel,Julia Lawrence,Marilyn
