Magnum P I Episode Guide:

Signs of Time Ursula Ganz-Blättler, 2018 US prime time television drama of the earlier broadcast era featured self contained storylines and mostly amnesiac protagonists This changed with the arrival of what television scholar Horace Newcomb termed cumulative narrative Prime time series of a new era adopted narrative features more typical for daytime soap opera and leading characters began to remember where they came from This study explores the organisational patterns and generic implications leading to the rise of cumulative storytelling It also points to further venues of analysis for backstory narratives and diegetic memory in general

Cop Shows Roger Sabin, Ronald Wilson, Linda Speidel, 2015-03-23 From cops who are paragons of virtue to cops who are as bad as the bad guys from surly loners to upbeat partners from detectives who pursue painstaking investigation to loose cannons who just want to kick down the door the heroes and anti heroes of TV police dramas are part of who we are They enter our living rooms and tell us tall tales about the social contract that exists between the citizen and the police Love them or loathe them according to the ratings we love them they serve a function They've entertained informed and sometimes infuriated audiences for more than 60 years This book examines Dragnet Highway Patrol Naked City The Untouchables The F B I Columbo Hawaii Five O Kojak Starsky Hutch Hill Street Blues Cagney Lacey Miami Vice Law Order Homicide Life on the Street NYPD Blue CSI The Shield The Wire and Justified It's time to take another look at the perps the vics and the boys and girls in blue and ask how their representation intersects with questions of class gender sexuality and race What is their socio cultural agenda What is their relation to genre and televisuality And why is it that when a TV cop gives a witness his card and says call me that witness always ends up on a slab

An Analytical Guide to Television's Battlestar Galactica John Kenneth Muir, 1999 When the space drama Battlestar Galactica debuted on ABC in 1978 it was expected to be the most popular new program of the year Instead it was attacked as a Star Wars rip off and canceled after a mere 17 stories The author acknowledges the show was full of dramatic clichés and

scientific inaccuracies but despite these shortcomings Battlestar Galactica was a dramatically resonant series full of unique and individual characters such as Commander Adama Lorne Greene and ace warrior Captain Apollo Richard Hatch The author contends that Battlestar Galactica was a memorable attempt to make science fiction accessible to mainstream television audiences The brilliant work of artist John Dykstra brought a new world of special effects to network television Battlestar Galactica also skillfully exploited legends and names from both the Bible and ancient mythology which added a layer of depth and maturity to the weekly drama
