with a new introduction by
Daniel J. Mahoney
& Brian C. Anderson

Main Currents In Sociological Thought Durkheim

Lingsheng Yao

Main Currents In Sociological Thought Durkheim:

Main Currents in Sociological Thought Raymond Aron, 1999 In this second volume of Main Currents of Sociological Thought Raymond Aron continues the analysis begun in the first volume of the great doctrines of historical sociology Aron explores the work of three figures who profoundly shaped sociology as it entered the twentieth century Emile Durkheim the great French theorist of consensus who continued Auguste Comte's quest for a science of society and a scientific validation of morality Vilfredo Pareto the Italian neo Machiavellian who mocked traditional morality and humanitarian pretensions and emphasized the oligarchic or elitist character of all societies and the German sociologist Max Weber who reflected continuously on the relationship between science and action filled with deep foreboding about the prospects for human freedom in an age marked by bureaucratization and rationalization Aron presents rich portraits of these three thinkers drawing from them what remains of enduring worth even as he distances himself from Durkheim's project for a science of society Pareto's exaggerated critique of humanitarianism and Weber's tragic pessimism Aron's book is essential for clarifying his profound indebtedness to and crucial divergences from the thought of Max Weber the sociologist par excellence in Aron's view Together with volume 1 which treats the work of Montesquieu Comte Marx and Tocqueville it forms the definitive survey of the great social thinkers to date Yet as Daniel J Mahoney and Brian C Anderson explain in their introduction Main Currents is more than a survey it is above all a challenge to contemporary social science to retain the ambition of an older philosophically informed sociology to present an interpretation of modern society and to reflect on the meaning of universal history

Main Currents in Sociological Thought Raymond Aron, 1990 Main Currents in Sociological Thought: Volume 2 Raymond Aron, 2018-09-08 This is the second of Raymond Aron's classic two volume survey of the sociological tradition arguably the definitive work of its kind Aron explores the work of three figures who profoundly shaped sociology as it entered the twentieth century Emile Durkheim who continued Auguste Comte's quest for a science of society and a scientific validation of morality Vilfredo Pareto the Italian neo Machiavellian who emphasized the oligarchic or elitist character of all societies and the German sociologist Max Weber who reflected critically on the prospects for human freedom in an age marked by bureaucratization and rationalization Aron presents rich portraits of these three thinkers drawing out the enduring insights that remain in their work At the same time he reflects critically on Durkheim's project for a science of society Pareto's critique of humanitarianism and Weber's tragic pessimism Above all the book is remarkable for demonstrating Aron's lifelong indebtedness to and divergence from the thought of Max Weber the sociologist par excellence in Aron's view This Routledge Classics edition includes an introduction by Daniel J Mahoney and Brian C Anderson

Main Currents in Sociological Thought Raymond Aron, 1970 Main Currents in Sociological Thought, 1982 *Main Currents in Sociological Thought* Raymond Aron, 2018-09-04 This is the first part of Raymond Aron's landmark two volume study of the sociological tradition arguably the definitive work of its kind More than a work of reconstruction Aron's study is

at its deepest level an engagement with the very question of modernity How did the intellectual currents which emerged in the eighteenth century shape the modern political and philosophical order With scrupulous fairness Aron examines the thought and arguments of the major social thinkers to discern how they answered this question Volume One explores three traditions the French liberal school of political sociology represented by Montesquieu and Tocqueville the Comtean tradition anticipating Durkheim in its elevation of social unity and consensus and the Marxists who posited the struggle between classes and placed their faith in historical necessity In his customary clear and penetrating prose Aron argues that each of these schools offers its own theory of the diversity of societies and that each is inspired both by moral convictions and by scientific hypotheses This Routledge Classics edition includes an introduction by Daniel J Mahoney and Brian C Anderson

Main Currents in Sociological Thought: Volume One Raymond Aron, 2018-10-03 This is the first part of Raymond Aron's landmark two volume study of the sociological tradition arguably the definitive work of its kind More than a work of reconstruction Aron's study is at its deepest level an engagement with the very question of modernity how did the intellectual currents which emerged in the eighteenth century shape the modern political and philosophical order With scrupulous fairness Aron examines the thoughts and arguments of the major social thinkers to discern how they answered this question Volume One explores three traditions the French liberal school of political sociology represented by Montesquieu and Tocqueville the Comtean tradition anticipating Durkheim in its elevation of social unity and consensus and the Marxists who posited the struggle between classes and placed their faith in historical necessity In his customary clear and penetrating prose Aron argues that each of these schools offers its own theory of the diversity of societies and that each is inspired both by moral convictions and by scientific hypotheses This Routledge Classics edition includes an introduction by Daniel J Mahoney and Brian C Anderson [Main Currents in Sociological Thought](#) Raymond Aron, 2018-11-14 [Main Currents in Sociological Thought](#) Raymond Aron, 1989 **Main Currents in Sociological Thought** Raymond Aron, 1998 This is the first of Raymond Aron's magisterial two volume treatment of the sociological tradition perhaps the definitive work of its kind The second volume treating Durkheim Pareto and Weber is scheduled to appear in spring 1998 More than a work of reconstruction Aron's study is at its deepest level an engagement with the question of modernity What constitutes the essence of the new modern order that having emerged in the eighteenth century still forms the categories of our experience sweeping us along toward an unknown destination With his usual scrupulous fairness Aron looks to the major social thinkers to discern how they answered this pressing question Volume 1 explores three traditions the French liberal school of political sociology represented by Montesquieu and Tocqueville the Comtean tradition anticipating Durkheim in its deemphasis of the political and its elevation of social unity and consensus and the Marxists who posited the struggle between classes and placed their faith in historical necessity A foreword by the eminent French philosopher Pierre Manent highlights Main Currents as a unique contribution to political philosophy as well as the history of sociological thought while Daniel J Mahoney

and Brian C Anderson provide an introduction situating *Main Currents* within the corpus of Aron's work as a whole. This work is essential reading for philosophers, historians, sociologists, and political scientists.

Main Currents in Sociological Thought: Volume Two Raymond Aron, 2025-05-06. The second volume of the landmark study examining the work of sociology's defining thinkers from the turn of the nineteenth century to the interwar period. *Main Currents in Sociological Thought* remains a foundational synthesis in the field. In this second and final volume of his classic survey, Raymond Aron explores the work of three figures who profoundly shaped sociology as it entered the twentieth century: Durkheim, who continued Comte's quest for a science of society and a scientific validation of morality; Pareto, the Italian neo-Machiavellian who emphasized the elitist character of all societies; and Weber, the German sociologist who reflected critically on the prospects for human freedom in an age of disenchantment. Bringing together penetrating intellectual portraits of these great thinkers and close readings of their most consequential texts, *Main Currents in Sociological Thought* highlights the historical and intellectual context within which each man wrote and draws out their works' enduring insights and influence in the field today.

Main Currents in Sociological Thought Raymond Aron, 1969. **Main Currents in Sociological Thought**, 1969

Main Currents in Sociological Thought: Montesquieu, Comte, Marx, Tocqueville, The sociologists and the Revolution of 1848 Raymond Aron, 1968. **Main Currents in Sociological Thought** Raymond Aron, 1968. **Main Currents in**

Sociological Thought Raymond Aron, 1965. *Main Currents in Sociological Thought: Montesquieu, Auguste Comte, Karl Marx, Alexis de Tocqueville, the sociologists and the Revolution of 1848* Raymond Aron, 1965. **Main currents in**

sociological thought Raymond Aron, 1967. *Main Currents in Sociological Thought: Durkheim, Pareto, Weber* Raymond Aron, 1970. **Sociological Thought** M. Francis Abraham, John Henry Morgan, 1989. Designed as a first-line introductory

text to the study of sociological thought, this book is now considered a classic in the field and is a top seller in the Third World for university courses in sociological theory. The perspective is cross-cultural. The main currents of sociological thought, says the author, advanced by the founders and the later masters, represent different times, various cultural contexts, and the many intellectual cross-current representatives of each's time period. Rigorously defined and not necessarily appropriately, these early thoughts were merely ideas rather than soundly constructed theories for building blocks of theoretical development. They provide insights into and perspectives on the structure and functioning of social systems and the conceptual frameworks for their systematic analysis. The history of sociology, then, is the history of social thought. This volume provides a carefully constructed look into the emerging social thought of the twentieth century as reflected in the emerging discipline of sociology.

Main Currents In Sociological Thought Durkheim Book Review: Unveiling the Power of Words

In some sort of driven by information and connectivity, the power of words has are more evident than ever. They have the capacity to inspire, provoke, and ignite change.
