The Roles of Accelerated Pavement Testing in Pavement Sustainability José P. Aguiar-Moya, Adriana Vargas-Nordcbeck, Fabricio Leiva-Villacorta, Luis G. Loría-Salazar, 2016-09-15 This compendium gathers the latest advances in the area of Accelerated Pavement Testing APT a means of testing full scale pavement construction in an accelerated manner for structural deterioration in a very short term Compiling novel research results presented at the 5th International Conference on Accelerated Pavement Testing San Jose Costa Rica the volume serves as a timely and highly relevant resource for materials scientists and engineers interested in determining the performance of a pavement structure during its service life 10 years in a few weeks or months On the Trail of Capital Flight from Africa Léonce Ndikumana, James K. Boyce, 2021-12-23 On the Trail of Capital Flight from Africa investigates the dynamics of capital flight from Angola Cote d'Ivoire and South Africa countries that have witnessed large scale illicit financial outflows in recent decades Quantitative qualitative and institutional analysis for each country is used to examine the modus operandi of capital flight that is the who how and where dimensions of the phenomenon Who refers to major domestic and foreign players how refers to mechanisms of capital acquisition transfer and concealment and where refers to the destinations of capital flight and the transactions involved The evidence reveals a complex network of actors and enablers involved in orchestrating and facilitating capital flight and the accumulation of private wealth in offshore secrecy jurisdictions This underscores the reality that capital flight is a global phenomenon and that measures to curtail it are a shared responsibility for Africa and the global community Addressing the problem of capital flight and related issues such as trade misinvoicing money laundering tax evasion and theft of public assets by political and economic elites will require national and global efforts with a high level of coordination

Democracy Disconnected Fiona Anciano, Laurence Piper, 2018-10-03 Why is dissatisfaction with local democracy endemic despite the spread of new participatory institutions This book argues that a key reason is the limited power of elected local officials especially to produce the City City Hall lacks control over key aspects of city decision making especially under conditions of economic globalisation and rapid urbanisation in the urban South Demonstrated through case studies of daily politics in Hout Bay Democracy Disconnected shows how Cape Town residents engage local rule In the absence of democratic control urban rule in the Global South becomes a complex and contingent framework of multiple and multilevel forms of urban governance FUG that involve City Hall but are not directed by it Bureaucratic governance coexists alongside market developmental and informal forms of governance This disconnect of democracy from urban governance segregates people spatially socially but also politically Thus while the residents of Hout Bay may live next to each other they do not live with each other This book will be a valuable resource for students on programmes such as urban studies political science sociology development studies and political geography
