Innovative Approaches to Supporting Families of Young Children Cheri J. Shapiro, Charlyn Harper Browne, 2016-08-02

This invaluable reference introduces successful strengths based programs for aiding families of young children in critical social contexts family school community and policy The wide range of systems contextual approaches described here are based in current understanding of children s development stress and resilience in families cultural competence and the two generational approach to intervention Research based examples across early care and early learning platforms illustrate the links between parental protective factors and children s academic and social outcomes and between family stability and larger social goals By supporting parents and children equally the contributors assert these interventions more fully address developmental and family issues than programs that mainly serve one generation or the other Included in the coverage Parent and community focused approaches to supporting parents of young children the Family Networks Project div Honoring parenting values expectations and approaches across cultures Building young children s executive functions at home and in early care and education settings Promoting early childhood development in the pediatric medical home Neighborhood approaches to supporting families of young children Public policy strategies to promote the well being of families with young children Innovative Approaches for Supporting Parents of Young Children benefits professionals and practitioners working to support families of young children particularly those interested in social work psychology public policy and public health

Russia-EU Relations and the Common Neighborhood Irina Busygina, 2017-07-20 Examining Russia EU relations in terms of the forms and types of power tools they use this book argues that the deteriorating relations between Russia and the EU lie in the deep differences in their preferences for the international status quo These different approaches combined with economic interdependence and geographic proximity means both parties experience significant difficulties in shaping strategy and formulating agendas with regards to each other The Russian leadership is well aware of the EU s authority orientation but fails to reliably predict foreign policy at the EU level whilst the EU realizes Russia s coercive orientation in general but cannot predict when and where coercive tools will be used next Russia is gradually realizing the importance of authority while the EU sees the necessity of coercion tools for coping with certain challenges The learning process is ongoing but the basic distinction remains unchanged and so their approaches cannot be reconciled as long as both actors exist in their current form Using a theoretical framework and case studies including Belarus Georgia and Ukraine Busygina examines the possibilities and constraints that arise when the power of authority and the power of coercion interact with each other and how this interaction affects third parties

American Government Scott F. Abernathy, 2020-12-10 The main strength of this book is that it presents a human side to American Government that challenges students to think critically while still presenting the teaching side with objectives self tests and chapter reviews Kathleen Barrett University of West Georgia In the Third Edition of American Government Stories of a Nation author Scott F

Abernathy tunes in to the voices of all Americans showing how our diverse ideas shape the way we participate and behave the laws we live by and the challenges we face From the Constitutional Convention to the 2020 presidential election each chapter features rich personal narratives that illustrate how the American political system is the product of strategies calculations and miscalculations of countless individuals It focuses on real people the actions they take the struggles they face and how their choices influence outcomes The key concepts are memorable because they are tied to real politics where students see political action and political choices shaping how institutions advance or impede the fulfillment of fundamental ideas Participation is at the heart of this groundbreaking new text with ample background on how we participate and why Not only will all students see themselves reflected in the pages but they will come to understand that they too are strategic players in American politics with voices that matter Digital Option Courseware SAGE Vantage is an intuitive digital platform that delivers this text s content and course materials in a learning experience that offers auto graded assignments and interactive multimedia tools all carefully designed to ignite student engagement and drive critical thinking Built with you and your students in mind it offers simple course set up and enables students to better prepare for class Assignable Video with Assessment Assignable video available with SAGE Vantage is tied to learning objectives and curated exclusively for this text to bring concepts to life LMS Cartridge Import this title s instructor resources into your school s learning management system LMS and save time Don t use an LMS You can still access all of the same online resources for this title via the password protected Instructor Resource Site CQ Press Lecture Spark Designed to save you time and ignite student engagement these free weekly lecture launchers focus on current event topics tied to key concepts in American Government

Absence in Science, Security and Policy Brian Balmer, Brian Rappert, 2016-02-06 This book explores the absent and missing in debates about science and security Through varied case studies including biological and chemical weapons control science journalism nanotechnology research and neuroethics the contributors explore how matters become absent ignored or forgotten and the implications for ethics policy and society The chapter Sensing Absence How to See What Isn t There in the Study of Science and Security is open access under a CC BY 4 0 license via link [springer.com](https://www.springer.com) *American Government* Scott F. Abernathy, 2025-01-07 American government is not just one story it s many stories Our stories And they are still being told American Government Fifth Edition tunes into the diverse perspectives and political persuasions involved in American politics This balanced approach encourages students to engage with the material while facilitating a thoughtful exploration of important themes in politics governance and current events Gender and Climate Change Joane Nagel, 2025-08-05 Does gender matter in global climate change This timely and provocative book takes readers on a guided tour of basic climate science then holds up a gender lens to find out what has been overlooked in popular discussion research and policy debates We see that around the world more women than men die in climate related natural disasters the history of science and war are intimately interwoven masculine occupations and preoccupations and conservative men and their

interests drive the climate change denial machine We also see that climate policymakers who embrace big science approaches and solutions to climate change are predominantly male with an ideology of perpetual economic growth and an agenda that marginalizes the interests of women and developing economies The book uses vivid case studies to highlight the often surprising gendered impacts of climate changes This new edition is a thorough update that includes revised and new chapters and new material that takes account of the significant advances in climate research environmental and social theory and the many political and social challenges posed in the wake of US elections Covid 19 pandemic and rapidly changing climate and environment The new edition also takes account of important social and cultural movements that resist challenges to women's rights and advocate for gender sexuality and racial justice This book will appeal to students researchers and academicians interested in environmental studies and gender studies It also will be of interest to policymakers activists and others involved with environmental policy and governance
