Memories Of A Lost World Travels Through The Magic Lantern:

Memories of a Lost World Charlotte Fiell, 2011 Photographic magic lantern slides from the 1870s to the 1930s Taken by intrepid travellers to all corners of the world to document its peoples customs **The Magic Lantern at Work** Martyn Jolly, Elisa deCourcy, 2020-01-20 For centuries various new media technologies have provided individuals with a set of powerful tools to affect their audiences Among these the magic lantern show was perhaps the most pervasive and persuasive Around the world audiences gathered together in darkened rooms to see a sequence of projected images transition one into another as they listened to personal stories or scripted narrations Through the power of the magic lantern audiences for the first time became the direct witnesses to distant often traumatic political events they visually learned new scientific and medical knowledge virtually experienced distant places and collectively experienced strange often uncanny phenomena Although relatively neglected until recently the apparatus of the magic lantern is now receiving the attention it deserves from historians curators and artists Through a set of case studies focusing on the use of the magic lantern by very different but equally fascinating individuals a team of international scholars analyses the emerging power of the lantern show in the nineteenth and twentieth centuries within politics religion travel science health marketing and entertainment The magic lantern's connections to today's multimedia environments are explored through the intertwined themes of connecting experiencing witnessing and persuading Reopening the Opening of Japan Lewis Bremner, Manimporok Dotulong, Sho Konishi, 2023-10-30 The Opening of Japan has been central to the retelling of Japan's modern history Reopening the Opening of Japan fundamentally reconsiders what that historical moment entailed What did intensified connections between Japan and the world mean both inside and outside of the country and what does this tell us about Japan's historical significance on a global scale The chapters excavate a rich array of surprising cross border connections from the global trade in mummified mermaids to the Japanese Russian intellectual links underpinning the work of Akira Kurosawa Re thinking connectivity through non state transnational perspectives the book guides readers to new ways of doing and writing history Contributors are Lewis Bremner Natalia Doan Manimporok Dotulong Maki Fukuoka Eiko Honda Sho Konishi Mateja Kovacic Joel Littler Chinami Oka Yu Sakai Olga Solovieva and Warren Stanislaus **Antarctica, Art and Archive** Polly Gould, 2020-12-10 Antarctica that icy wasteland and extreme environment at the ends of the earth was at the beginning of the 20th century the last frontier of Victorian imperialism a territory subjected to heroic and sometimes desperate exploration Now at the start of the 21st century Antarctica is the vulnerable landscape behind iconic images of climate change In this genre crossing narrative Gould takes us on a journey to the South Pole through art and archive Through the life and tragic death of Edward Wilson polar explorer doctor scientist and artist and his watercolours and through the work of a pioneer of modern anthropology and opponent of scientific racism Franz Boas Gould exposes the legacies of colonialism and racial and gendered identities of the time Antarctica the White Continent far from being a blank and white canvas is revealed to be full of colour

Gould argues that the medium matters and that the practices of observation in art anthropology and science determine how we see and what we know Stories of exploration and open air watercolour painting of weather experiments and ethnographic collecting of evolution and extinction are interwoven to raise important questions for our times Revisiting Antarctica through the archive becomes the urgent endeavour to imagine an inhabitable planetary future **Insight Guides Travel**
