## La Parole De Lascaux:

**Maurice Blanchot on Poetry and Narrative** Kevin Hart, 2023-05-18 Blanchot and his writings on three major poets Mallarmé Hölderlin and Char provide a decisive new point of departure for English language criticism of his philosophical writings on narrative in this study by leading Blanchot scholar Kevin Hart Connecting his work to later leading figures of 20th century French philosophy including Emmanuel Levinas Simone Weil and Jacques Derrida Hart highlights the importance of Jewish philosophy and political thought to his overall conception of literature Chapters on community and negation reveal Blanchot's emphasis on the relationship between narrative and politics over the more commonly connected narrative and aesthetics By fully discussing Blanchot's elusive concept of the Outside for the first time this book progresses scholarly understandings of his entire oeuvre further This central concept engages Franz Rosenzweig's work on Abrahamic faiths enabling a reckoning on the role of suffering and literature in the wake of the Shoah with significant implications for Jewish studies more generally

**Reproducing Images and Texts / La reproduction des images et des textes**, 2021-12-13 How has reproduction transformed works of art and literature their dissemination and their reception And how does it continue to do so In what ways have our definitions and practices of reproduction changed over the last centuries thanks to new printing photographic and digital techniques These questions are timely From the medieval copy to contemporary digital culture including the rise of the printing press and engraving techniques in the Renaissance and the Ancien Régime myriad modes of reproduction informed both our access to texts and images and our ways of reading seeing understanding discovering and questioning the world Dans quelle mesure la reproduction transforme-t-elle les œuvres leur diffusion et leur réception De quelles manières les conceptions et les usages de la reproduction ont-ils subi des transformations majeures au cours des derniers siècles avec la diffusion des pratiques d'impression de la photographie et des techniques numériques Ces questions sont d'une actualité incontournable De la copie médiévale la culture numérique contemporaine en passant par l'essor de l'imprimerie et les techniques de gravure la Renaissance et sous l'Ancien Régime les différents modes de reproduction informent non seulement nos accès aux textes et aux images mais aussi nos manières de lire de voir de comprendre de couvrir et d'interroger le monde

*Framing French Culture* Natalie Edwards, Ben McCann, 2015 Throughout this book the concept of framing is used to look at art photography scientific drawings and cinema as visually constituted spatially bounded productions The way these genres relate to that which exists beyond the frame by means of plastic chemically transposed pencil sketched or moving images allows us to decipher the particular language of the visual and at the same time circumscribe the dialectic between presence and absence that is proper to all visual media Yet these kinds of re-framing owe their existence to the ruptures and upheavals that marked the demise of certain discursive systems in the past
