La Question Morale Une Anthologie Critique:

La question morale. Une anthologie critique Didier Fassin, Samuel Lézé, 2014-01-31 T00:00:00+01:00 Si l'anthropologie ne cesse de parler de morale peu d'auteurs ont tenté de thématiser la question morale en tant que telle. L'omniprésence contemporaine de cette question exige pourtant de réfléchir cet impens des sciences sociales. C'est ce travail de problématisation des diverses dimensions de la morale que cette anthologie critique se consacre en rassemblant, traduisant et présentant les textes qui ont jalonné un domaine de recherche en plein essor : l'anthropologie morale. Cinq parties adossées chacune à une discussion critique organisent le volume. L'ouvrage reconstitue ainsi la géographie qui mêle de la philosophie morale la constitution d'une science morale et sociale, réunit les principales tentatives anthropologiques de penser la morale entre relativisme et universalisme, développe les concepts importants de morales locales et d'économies morales, analyse la rencontre entre les anthropologues et la morale telle qu'ils l'ont découverte sur le terrain et enfin explicite l'éthique de l'anthropologie et les paradoxes moraux des codifications éthiques actuelles.

The Anthropology of Morality Monica Heintz, 2020-12-29 Why, when and where are some moral systems supported and followed whilst others are condemned? Are moral values culturally relative or universal? Can immoral actions be tolerated in times of crisis? Is the dream of becoming better sufficient for prompting virtuous behavior or should we dream about what is best? Do moral values last? The divergence in practices and codes of moral belief and action present significant challenges but also offer opportunities to anthropologists for understanding social life. In this book, Monica Heintz explores these questions drawing on case studies from Eastern Europe that encompass migration, religion, economic and social policies and paying particular attention to the way morality works in communities undergoing rapid social change. She uses these examples to reflect on the wider question of societal conflict and change, showing how they are driven by moral values. By highlighting the centrality of such values as engines for action and questioning the limits of universal moral values, she argues that anthropology has the capacity to shed light on the study of human morality more generally. *The Anthropology of Morality: A Dynamic and Interactionist Approach* will be of interest to students and researchers in anthropology as well as those in politics and sociology with an interest in European politics.

Anthropologie de la morale et de l'éthique Raymond Massé, 2015-11-17 T00:00:00-05:00 Depuis le début du XX^e siècle, forte de ses expertises de terrain, l'anthropologie a œuvré pour promouvoir une meilleure communication entre des sociétés porteuses de conceptions morales et éthiques différentes. Mais bien qu'elle soit outillée d'un relativisme méthodologique qui impose autant d'ouverture à l'autre qu'un recul critique face nous, elle contribue mieux à comprendre les enjeux éthiques dans les mondes moraux contemporains. Si oui, de quelle façon? Dans quelles sphères des rapports sociaux? Tout en reconnaissant les inevitables recoupements entre les concepts de morale et d'éthique, le pari relevé ici est de dresser un portrait d'une anthropologie classique de la morale et d'une anthropologie de l'éthique. L'ouvrage répondra alors à d'autres questions : Quels sont leurs concepts et cadres méthodologiques respectifs? Quels sont les lieux où l'on pourra les observer et les analyser?

Solidarity Between Species Frederic Keck,2025-05-06 This book examines how the Covid 19 pandemic can be described as a biopolitical crisis taking into account a fact often overlooked by commentators Covid 19 is a zoonosis a disease transmissible between animal species The Sars Cov2 virus causing this respiratory disease circulated in bats before passing to humans under as yet mysterious conditions and it was transmitted from humans to other species notably mink and deer Building on Michel Foucault s revival of the term biopolitics and related notions disciplinary power pastoral power cynegetic power this book traces a set of public health measures taken over the last two centuries to control epidemics It underlines how the need to conserve virus strains in order to identify and anticipate their mutations has given rise to cryopolitics a set of techniques aimed at suspending the living in order to defer death The book then questions the emancipatory scope of this cryopolitics by examining interspecies solidarity built by the warning signals sent by animals to humans about coming threats be they pandemics natural disasters or climate change By blurring the boundaries between the wild and the domestic resulting from the process of domestication the politics of zoonoses relies on sentinels who preserve the memory of signs from the past to prepare living beings for future threats by involving them in a common ideal

New Developments in the Bioarchaeology of Care Lorna Tilley,Alecia A. Schrenk,2016-08-22 New Developments in the Bioarchaeology of Care evaluates refines and expands existing concepts and practices in the developing field of bioarchaeological research into health related care provision in the past Evidence in human remains that indicates an individual survived with or following a serious pathology suggests this person most likely received some form of care from others This observation was first made half a century ago but it is only in the last five years that health related caregiving has been accepted as a topic for bioarchaeology research In this time interest has grown exponentially A focus on care provides a dynamic framework for examining the experiences of disease and disability in the past at the level of the individual receiving

care and that of the community providing it When caregiving can be identified in the archaeological record bioarchaeologists may be able to offer unique insights into aspects of past lifeways This volume represents the work of an international diverse cross disciplinary group of contributors each bringing their own particular focus style and expertise to analyzing past health related care Nineteen chapters offer content that ranges from an introduction to the basic bioarchaeology of care approach through original case studies of care provision to new theoretical perspectives in this emerging area of scholarship This book creates a synergy that challenges our thinking about past health related care behaviors and about the implications of these behaviors for understanding the social environment in which they took place **Post-Apartheid Community-Based**

Activism Louise Penner,Rajini Srikanth,2024-12-06 This book provides a timely study of community based activism in contemporary South Africa Grounded in oral history the book examines the acquired expertise and life experiences of an impactful South African activist Mandla Majola within the context of the people circumstances and affiliations that have shaped his strategic thinking and practice The authors situate Mandla Majola s activist and everyday experiences within histories of the complex connections between post apartheid political and social movements and human rights discourse as they emerged after 1994 The book illuminates the relationship of state power to public health activism for HIV tuberculosis and COVID 19 and for a life of basic human dignity including access to sanitation and housing Mandla Majola s life spotlights the inspiring sometimes grueling and tireless quotidian work of thousands of invisible community based activists whose collective actions have impacted the entire spectrum of social and economic rights of untold numbers of people in South Africa and beyond Money from the Government in Latin America Maria Elisa Balen,Martin Fotta,2018-11-02 It has been almost two decades since conditional cash transfer programs first appeared on the agendas of multilateral agencies and politicians Latin America has often been used as a testing ground for these programs which consist of transfers of money to subsections of the population upon meeting certain conditions such as sending their children to school or having them vaccinated Money from the Government in Latin America takes a comparative view of the effects of this regular transfer of money which comes with obligations on rural communities Drawing on a variety of data taken from different disciplinary perspectives these chapters help to build an understanding of the place of conditional cash transfer programs in rural families and households in individuals aspirations and visions in communities relationships to urban areas and in the overall character of these rural societies With case studies from Chile Mexico Peru Brazil and Colombia this book will interest scholars and researchers of Latin American anthropology sociology development economics and politics Le corps et l'esprit Sandrine Roux,2015-11-04 Les progrès de la physique et l'essor des sciences cognitives dans la seconde moitié du XX^e siècle ont remis au centre de la réflexion philosophique la question de la nature du mental et de sa relation avec le physique et si Descartes se tait trompé en distinguant radicalement l'esprit et le corps Si nos croyances nos désirs nos douleurs nos craintes nos espoirs et plus généralement l'ensemble de notre vie mentale n'étaient rien de plus que des processus physiques concrets Cela n'aurait-il

pas en outre l'avantage de résoudre le problème des rapports entre corps et esprit en levant définitivement les difficultés associées au dualisme cartésien. L'abandon du dualisme des substances n'a pourtant pas suffi à supprimer le problème corps-esprit qui continue d'alimenter aujourd'hui les plus vigoureux débats. Bien que le contexte des réflexions actuelles soit différent de celui de l'âge classique la référence Descartes est constante et sert une formulation plus précise des défis que la philosophie de l'esprit et les sciences cognitives contemporaines se doivent de surmonter. Comment l'expliquer et quel rôle l'histoire de la philosophie a-t-elle ici joué ?

Pensando bem Alexandre Werneck, Luís R. Cardoso de Oliveira, 2014 Este livro o resultado de três anos de debates entre estudiosos interessados em entender o modo como diferentes dimensões da vida podem ser lidas sob a perspectiva da moral. Afinal, embora este tenha sido sempre um tema importante para a sociologia e a antropologia, raros têm sido os esforços brasileiros para a realização de pesquisas empíricas nessa área. Considerando essa lacuna, os autores dos 22 ensaios que fazem parte de *Pensando bem* se concentram na discussão prática da moral tomada do nosso cotidiano, privilegiando formas de ultrapassar a dicotomia entre abordagens preocupadas com o correto ou justo de um lado e aquelas preocupadas com o bom de outro.
