**Menstruation and Procreation in Early Modern France** Cathy McClive,2016-03-03 Early modern bodies particularly menstruating and pregnant bodies were not stable signifiers Menstruation and Procreation in Early Modern France presents the first full length discussion of menstruation and its uncertain connections with embodied sex gender and reproduction in early modern France Attitudes to menstruation are explored in three inter linked arenas medicine moral theology and law across the sixteenth to the eighteenth centuries Drawing on a wide range of diverse sources including court records and private documents the author uses case studies to explore the relationship between the exceptional corporeality of individuals and attempts to construct menstrual norms reflecting on how early modern individuals lay or otherwise grappled with the enigma of menstruation She analyzes how early modern men and women accounted for the function recurrence and appearance of menstruation from its role in maintaining health to the link between other physiological and bodily processes including those found in both male and female bodies She questions the assumption that menstruation was exclusively associated with women by the second half of the eighteenth century arguing that whilst sex related menstruation was not sex specific even at the turn of the nineteenth Menstruation remains a contentious topic today This book is not therefore simply a study of periods in early modern France but is also of necessity an exploration about the nature and constitution of historical evidence particularly bodily evidence and how historians use this evidence It raises important questions about the concept of certainty and about the value of observation testimony expertise the nature of language and the construction of bodily truths about the body as witness and the body as evidence    **Manuel biblique ou Cours d'écriture sainte à l'usage des séminaires** Fulcran Vigouroux,1906    **Essays on the Languages of the Bible and Bible-translations** Robert Needham Cust,1890    **Publisher and Bookseller** ,1875 Vols for 1871 76 1913 14 include an extra number The Christmas bookseller separately paged and not included in the consecutive numbering of the regular series    **Publishers' circular and**

**The French Booktrade and the "permission Simple" of 1777** Robert L. Dawson,1992 In 1777 a series of royal decrees heralded the restructuring of the French booktrade An important innovation was the creation of a public domain for certain kinds of books whose privilege or copyright had expired In order not to relinquish control over a vast category of books the government decided to implement a new kind of printing and publishing permit the permission simple As historian and bibliologist the author examines the many issues involved in the implementation of the permit explaining the circumstances that led to the creation of a public domain the economic policies of the government with respect to the permission simple and what exactly the procedures entailed Other issues concerning the permit are also covered edition runs a number of illicit activities the relationship of free trade the physiocrats and Turgot to booktrade policies the significance of Diderot's *Lettre sur le commerce de la librairie* The study is largely based on hitherto unpublished sources and on books printed by virtue of the permit Included in the volume is an edition of the permission simple ledgers This is the first time that the registers of an entire category of French books printed by virtue of a given authorisation have been published They contain references to nearly two thousand editions many today lost of a wide variety of works The entries are invaluable for the information they provide about the output of many important provincial printers and booksellers Together the two registers provide a unique picture of French book production during the dozen years or so preceding the Revolution
