Petroleum Refining Design and Applications Handbook, Volume 1 A. Kayode Coker,2018-09-05 There is a renaissance that is occurring in chemical and process engineering and it is crucial for today's scientists, engineers, technicians and operators to stay current. With so many changes over the last few decades in equipment and processes, petroleum refining is almost a living document constantly needing updating. With no new refineries being built, companies are spending their capital retooling and adding on to existing plants. Refineries are like small cities today as they grow bigger and bigger and more and more complex. A huge percentage of a refinery can be changed literally from year to year to account for the type of crude being refined or to integrate new equipment or processes. This book is the most up to date and comprehensive coverage of the most significant and recent changes to petroleum refining, presenting the state of the art to the engineer, scientist or student. Useful as a textbook, this is also an excellent handy go to reference for the veteran engineer. A volume no chemical or process engineering library should be without. Modern Petroleum Refining Processes, 5/E Rao,2007 The availability and continuity of Petroleum and Natural gas have become an important parameter for the growth of economy of any country. Specially the scarcity of the precious stock is reflected in the growing economies. Our country being poor in these resources has to depend upon the ever increasing imports. Our crude production for decades together never crossed 34 MMT, thus by 2010 we may have to import 130-150 MMTPA though our refining capacity has gone up to 134 MMTPA with a present consumption of 110 MMTPA. With new discoveries and over sea ventures by ONGC and other oil producing organizations, present production is better than what it was four decades ago. The present Fifth Edition is a value added text and taken care of many aspects of modern refining and Indian Industry. Contents: Origin, Formation and Composition of Petroleum, Petroleum Processing Data, Fractionation of Petroleum, Treatment Techniques, Thermal and Catalytical Processes, Asphalt Technology, Appendix 1, Appendix 2, Appendix 3, Appendix 4, Appendix 5, Index.
