They even capture Lucky Luke and force him to help them *European Comics in English Translation* Randall William Scott, 2002 European comic authors produced a steady stream of comic material throughout the twentieth century but gained the world's notice in 1975 when the French magazine *Métal Hurlant* was founded. A new generation of artists and writers had begun. Soon publishers were producing translations of the new comics into other languages including English and comics creators everywhere were inspired to innovation. This is a reference work arranged by artist or writer to European comics from the last quarter of the twentieth century that have been translated from any European language into English. It contains a variety of material from the innocent imperialism of Herge's Tintin to the sadistic murder for hire in Bernet's *Torpedo*. Albums by a single creator or artist and writer team of European origin are the focus; comics in periodicals and anthologies with multiple contributors are excluded. Each entry provides a plot abstract and various notes about the original comic. An author index provides brief biographical information. There is a comprehensive general index.

International Westerns Cynthia J. Miller, A. Bowdoin Van Riper, 2013-11-21 The Western tradition with its well-worn tropes readily identifiable characters, iconic landscapes and evocative soundtracks is not limited to the United States. Western or Western-inspired films have played a part in the output of numerous national film traditions including Asia, Central and Eastern Europe and Latin America. In *International Westerns: Re-Locating the Frontier* Cynthia J. Miller and A. Bowdoin Van Riper have assembled a collection of essays that explore the significance and meanings of these films, their roots in other media and their reception in the national industries which gave them form. Among the questions that the volume seeks to answer are: What do Westerns not made in the U.S. reveal? In what ways do they challenge or support the idea of national literatures and cinemas? How do these films negotiate nation, narrative and genre? Divided into five sections, the twenty essays in this volume look at films from a wide range of national cinemas such as France (*The Adventures of Lucky Luke*), Germany (*Der Schuh des Maitu*), Brazil (*O Cangaceiro*), Eastern Europe (*Lemonade Joe*) and of course Asia (*Sukiyaki Western Django*). Featuring contributions from a diverse group of international scholars often writing about Westerns adapted to their own national traditions, these essays address such matters as competing national film traditions, various forms of satire and comedy based on the Western tradition, the range of cultural adaptations of the traditional Western hero, the ties between the nation-state and the outlaw and Westerns in a variety of unanticipated guises. Representing a broader look at global Westerns than any other single volume to date and featuring more than 70 illustrations, *International Westerns* will be of interest to scholars of film, popular culture and cultural history.
