density based traffic control system using arduino ssrn - May 14 2022

web oct 11 2021 this paper is designed to develop a density based traffic controller system using arduino the signal timing changes automatically on sensing the traffic density at the junction the microcontroller used in this project is arduino

density based traffic control with emergency override - Feb 23 2023

web may 19 2018 it allocates equal time slots to each road irrespective of the traffic density this creates unnecessary waiting for drivers which is not possible every time therefore we propose density based traffic control system which allocates

different time slots to each road according to vehicle density
