This book provides practical information and insights to library administrators and building plan team members at academic
and public libraries who are considering or starting a library expansion or reconfiguration of existing space Building a new
library or expanding or renovating an existing building brings up a host of questions and concerns not the least of which
involves the future of the library This book addresses those issues in light of an overarching positive vision of libraries and
their evolving purposes and roles in the 21st century This guide identifies and addresses all of the steps in the building
process including preparing the request for proposal RFP selecting the right architect for the job developing a financial
contingency plan and managing stakeholders expectations The book presents both the perspectives and experience of library
administrators and management personnel as well as the insights of accomplished library architects and designers It
provides thorough practical and current guidance in a process that library administrators often find daunting and risk
immersive Reading this book is like sitting down with a knowledgeable impartial consultant before beginning a major
renovation project a tremendous asset for library administrators as well as architectural firms Reports from
