Example Part B Questions (20 marks)

To what extent did World War One undermine the Liberal State in Italy?

Intro –

P1 – Military Stalemate 1915-16, hoped war would bring unity but did not, instead revealed problems and divisions in Italian society, military tribunals passed resulting in 4000 death sentences for desertion and indiscipline and war left thousands of soldiers sacrificed, stalemate was more costly in Italy than in Austria, leads to problems economically for the Liberal Italian state to overcome and leads to people not wanting to support the liberal state due to relating it to the losses suffered in the war and sometimes pulled to fight in a war that they did not want to fight in (5 million men being conscripted) leading to them not wanting to support the liberal state and thus undermining it, in addition to this Italian soldiers captured by Austrians felt betrayed by the government so increases lack of support for state and increases chances of them opposing and going against it further undermining the liberal state

P2 – Socialist responses to war, PSI continued opposing war leading to imprisonment of many PSI leaders, position on war created further polarisation between left and right wing politics, blamed for poor performance of military, gained major votes in local and national elections but deeply divided Italy, undermines the liberal state as creates further division in the politics of the country making it harder for government to work effectively as parties constantly opposing each other which undermines the liberal state and would have an effect on the lifespan of the Liberal State due to not being able to work properly

P3 – Significance of victory, end of war in Italy 4 November 1918 with Austria signing armistice, victory increased divided economy between North and South and resulted in debt and inflation within the country along with 650,000 casualties, government couldn't commit to promises made to peasants and couldn't provide compensation to soldiers who were expecting it for their war efforts, Italians also expecting major political changes after war which did not occur, all of this undermines the liberal state as people would not want to support a government that could not keep its promises to the people and would see them as untrustworthy and unreliable creating lack of support which undermines the state, problems to solve relating to the economy making it harder to help the people and with government already facing problems with political tensions increasing and Giolitti's resignation as well as the Socialists actions in response to the war makes it harder to solve these problems making government seem unorganised further undermining the liberal state

P4 –

How significant was the North/South divide in undermining the stability of the Liberal government in Italy in the years 1871-1922?

Intro –

P1 – North/South divide, industrialisation mainly focused in North, industrialisation didn't benefit wider population and living standards low for rural workers which was
