Explore It

Use the math you already know to solve the problem.

- You can think about the total surface area of the pool as the sum of the surface areas of the swimming sections and the other sections. Write an expression that represents this way of thinking about the total surface area.

- You can think about the total surface area as $25(8) + 8x + 25x + x^2$. Draw and label a picture that shows this way of thinking about the total surface area.
- You can think about the total surface area as $(25 + x)(8 + x)$. Explain the thinking behind this expression.
