Lethal Attraction Against The Rulesfatal Affair:

Lethal Attraction Linda Howard, Marie Force, 2013-05-28 In this double dose of romance two worlds collide in timeless stories of love and deception by New York Times bestselling author Howard and USA Today bestselling author Force

Enemy Civilian Casualties Ofer Fridman, 2019-03-13 Civil casualties and collateral damage have been long considered as an undesired outcome of military activity that has to be reduced While most of the contemporary discourse on this topic has been primarily concentrating on three main factors the legal aspects of causing civil casualties the impact of war on local population and different factors of military professionalism required to avoid disproportional harm to civilians this book asks an entirely different question As the subject of civil casualties during military operations seems to be highly politicized this book takes this discourse out of its usual niches and suggests that the indirect responsibility rests with the politicians and the public which they represent When a society in the beginning of the 21st century sends its troops to a battle does it really care about the enemy civilian casualties To answer this question this book traces the political and cultural factors that have led to the failure of Non Lethal Weapons the great promise of the 1990s which was intended to make the war significantly less lethal than it was known before Examining three different cases this study explains that the idea of minimizing civil casualties is no more than an illusion and in fact neither politicians nor societies feel really stressed to change this situation

Military Ethics and Emerging Technologies Timothy J. Demy, George R. Lucas Jr., Bradley J. Strawser, 2016-01-08 This volume looks at current and emerging technologies of war and some of the ethical issues surrounding their use Although the nature and politics of war never change the weapons and technologies used in war do change and are always undergoing development Because of that the arsenal of weapons for twenty first century conflict is different from previous centuries Weapons in today s world include an array of instruments of war that include robotics cyber war capabilities human performance enhancement for warriors and the proliferation of an entire spectrum of unmanned weapons systems and platforms Tactical weapons now have the potential of strategic results and have changed the understanding of the battle space creating ethical legal and political issues unknown in the pre 9 11 world What do these technologies mean for things such as contemporary international relations the just war tradition and civil military relations Directed at readers in the academic scientific military and public policy communities this volume offers current thought on ethics and emerging technologies from internationally recognized scholars addressing the full spectrum of issues in present warfare technology It includes current and ongoing topics of multi discipline and international interest such as ethics law international relations war studies public policy science and technology This book was originally published in various issues and volumes of the Journal of Military Ethics

Havana Syndrome Armin Krishnan, 2025-09-04 Havana Syndrome is most likely caused by unknown types of directed energy weapons either of the acoustic or electromagnetic variety The technology for such weapons has been under development since at least the 1960s The first covert attacks on U S diplomats may go back to that

time when the phenomenon was called the Moscow Signal Havana Syndrome A Threat to National Security covers the history of anti personnel directed energy weapons DEW from the Soviet psychotronic weapons that were rumored to exist since the 1970s to the nonlethal weapons developed in the West in the 1980s onward The book examines the publicly known details of Havana Syndrome and provides some analysis of the U S government investigations into Havana Syndrome with respect to what has been declassified The most likely perpetrators are the Russian or Chinese governments as some incidents seem to be related to their strategic interests and as both would have the technology to carry out such sophisticated attacks Havana Syndrome establishes a connection between the Anomalous Health Incidents and what NATO analysts have termed cognitive warfare to speculate about the true purpose of these mysterious attacks *The Saturday Review of Politics, Literature, Science, Art, and Finance* ,1889 **The Pharmaceutical Era** Charles W.
