Introduction to Sample Questions

The NBVME has selected the following 60 questions to provide you with an idea of the type of questions that appear in the NAVLE. The answer key is at the end. These sample questions were chosen to represent the various species and content areas of the examination, but they do not address all of the NAVLE content areas as defined in the blueprint. As noted earlier, approximately 12% of the questions on each form of the NAVLE will include graphic or pictorial information. For printing purposes, the sample questions that follow only use black and white images, but some of the questions on the actual NAVLE will include color images as well.

It is also recommended that you download the computer formatted version of these sample test questions from this web site in order to get experience with the actual NAVLE computer-based format.
