National Data Collection Police Use Of Force 2014:

Community Policing Today Deborah A. Parsons, Janine Kremling, 2020-09-20 Framing community policing not as a program but as a transformation from traditional policing that involves sweeping changes in the way police view their role and relationships with the community the authors demonstrate how law enforcement officers can partner with the community to help facilitate problem solving of public safety issues

Crime and No Punishment Marie Gottschalk, 2025-11-18 How a focus on street crime has allowed corporate malfeasance to grow and why understanding both together is key to a true picture of violence in America Provided by publisher

The Rise of Big Data Policing Andrew Guthrie Ferguson, 2017-12-26 PROSE Award Winner in Law Legal Studies Essential reading for anyone who wants to understand how technology is changing American policing Kirkus Reviews starred review In a command center in downtown Los Angeles a digital map lights up with 911 calls TV monitors track breaking news surveillance cameras sweep the streets and rows of computers link analysts and police officers to a wealth of intelligence This is just a glimpse into a future where software predicts crimes algorithms generate most wanted lists and databanks collect personal and biometric information The Rise of Big Data Policing introduces the cutting edge technology that is changing how the police do their jobs and shows why it is crucial that citizens understand the far reaching consequences of big data surveillance as a law enforcement tool Andrew Guthrie Ferguson reveals how these technologies viewed as race neutral and objective have been eagerly adopted by police departments hoping to distance themselves from claims of racial bias and unconstitutional practices After a series of high profile police shootings and federal investigations into systemic misconduct and in an era of law enforcement budget cutbacks data driven policing has been billed as a way to turn the page on racial bias But behind the data are real people and difficult questions remain This groundbreaking book examines how new technologies will alter who where when and how we police and how they also offer data driven methods to improve police accountability and remedy underlying socio economic risk factors that encourage crime It is a must read for understanding how technology will revolutionize law enforcement and its potential threat to the security privacy and constitutional rights of citizens Ferguson teaches us not only the fault lines in how police watch us but how we can turn the tables to use new algorithms to watch the police At stake is nothing less than individual liberty and the democratic control of policing Jeffrey Fagan Isidor and Seville Sulzbacher Professor of Law Columbia University Ferguson has an incredible command of the many subjects that fall under the big data umbrella Gizmodo Will be indispensable to anyone interested in the practice of policing Library Journal

Unwarranted Barry Friedman, 2017-02-21

At a time when policing in America is at a crossroads Barry Friedman provides much needed insight analysis and direction in his thoughtful new book *Unwarranted* illuminates many of the often ignored issues surrounding how we police in America and highlights why reform is so urgently needed This revealing book comes at a critically important time and has much to offer all who care about fair treatment and public safety Bryan Stevenson founder and Executive Director of the Equal Justice Initiative and author of *Just Mercy A Story of Justice and Redemption* In June 2013 documents leaked by Edward Snowden sparked widespread debate about secret government surveillance of Americans Just over a year later the shooting of Michael Brown a black teenager in Ferguson Missouri set off protests and triggered concern about militarization of law enforcement and discriminatory policing In *Unwarranted* Barry Friedman argues that these two seemingly disparate events are connected and that the problem is not so much the policing agencies as it is the rest of us We allow these agencies to operate in secret and to decide how to police us rather than calling the shots ourselves And the courts which we depended upon to supervise policing have let us down entirely *Unwarranted* tells the stories of ordinary people whose lives were torn apart by policing by the methods of cops on the beat and those of the FBI and NSA Driven by technology policing has changed dramatically Once cops sought out bad guys today increasingly militarized forces conduct wide surveillance of all of us Friedman captures the eerie new environment in which CCTV location tracking and predictive policing have made suspects of us all while proliferating SWAT teams and increased use of force have put everyone's property and lives at risk Policing falls particularly heavily on minority communities and the poor but as *Unwarranted* makes clear the effects of policing are much broader still Policing is everyone's problem Police play an indispensable role in our society But our failure to supervise them has left us all in peril *Unwarranted* is a critical timely intervention into debates about policing a call to take responsibility for governing those who govern us
