a music library and create playlists for every occasion **Mac User's Guide to Living Wirelessly** Brad Miser, 2005 The major force driving people to embrace wireless computing is Wi-Fi. Once dismissed as a fad, Wi-Fi is rapidly becoming ubiquitous in the US and around the world. In 2004, more than half of all laptops sold in the US shipped with Wi-Fi installed. By 2007, most analysts predict that nearly every laptop sold in the US will include Wi-Fi. Nearly 20 million Wi-Fi access points will be sold this year, up 20% from last year. As these numbers grow, prices will continue to fall, making Wi-Fi more attractive to more and more people. By the end of this year, there will be more than 40,000 hotspots, public Wi-Fi access points available across the US in hotels, fast food restaurants, cafés, airports, even parks. By 2007, that number will surpass 100,000. From McDonald's to Kinko's to Holiday Inn, Wi-Fi is becoming a killer amenity. Once Wi-Fi networks are in place, they can be used for much more than just Internet access. For example, the AirPort Express allows users to stream iTunes throughout their homes wirelessly. Wi-Fi is being used to network printers, cameras, and ultimately home entertainment devices. *Absolute Beginner's Guide to iPod and iTunes* Brad Miser, 2006 *Absolute Beginner's Guide to iPod and iTunes* Second Edition teaches you how to take your music digital with the amazing iPod and its companion software iTunes. **Your iPod Life** Dan Frakes, 2006 Ranging from the silly (a 35-posable case that looks like a cat) to the sublime (the 400 Klipsch iFi digital music system), iPod accessories are almost as hot as the iconic music player itself. Here to help you make sense of the explosion of cases, carriers, cables, external speakers, FM transmitters, battery chargers, and more is eye candy of another kind: a beautiful, full-color guide that lets you drool over the world of accessories available for your beloved music player. With a picture of each product and a description and analysis to go alongside, you'll discover not only just what you're looking for, but items you'd never imagined existed: waterproof headphones and cases good for depths up to 10 feet, a remote control with an FM radio built in, an international AC adapter, an iPod docking alarm clock, and more, much more. Get this guide and start exploring.
