(Re)presentations and Dialogue François Cooren,Alain Létourneau,2012-11-23 This edited volume proposes key contributions addressing the connections between two important themes dialogue and representation These connections were approached or interpreted in three possible ways 1 Dialogue as representation 2 Normative perspectives on dialogue representation issues and 3 Representations of dialogue The first interpretation Dialogue as representation consists of exploring dialogue as an activity where many things beings or voices can be made present whether we think in terms of ideologies cultures situations collectives roles etc The second interpretation Normative perspectives on dialogue representation issues leads scholars to explore questions of normativity which are often associated with the notion of dialogue when conceived as a morally stronger form of conversation Finally the third interpretation Representations of dialogue invites us to address methodological questions related to the representation of this type of conversation Echoing Bakhtin contributors were invited to explore the polyphonic heteroglot or dialogic character of any text discourse or interaction Dictionnaire D'archéologie Chrétienne Et de Liturgie, Publié Par Le R.
