March 11, 2050

**Katie Lynch**

202 Elm Road,  
Meadowville, GA 30309

Dear Ms. Katie Lynch,

I trust this letter finds you well. I am writing to formally request your invaluable assistance in providing funding support for our groundbreaking project, which we believe holds immense potential for financial gain and promises to positively impact the industry as a whole.

Our project represents a visionary endeavor that can transition seamlessly from concept to reality. Your financial backing is crucial in propelling our venture to success. By contributing to our venture, you will play a pivotal role in shaping its success. Your support will contribute to driving positive change.

Thank you for taking the time to consider our request. We are confident that

Conducting research requires resources to meet the research need The resources in the research institutes centers are often inadequate limiting the research outcome Research grants help overcome those limitations and help the researchers carry out quality research without any restriction Grant proposal writing is an essential skill to be mastered by every researcher However the majority of the medical schools except the few research institutes do not have a structured learning module for obtaining grants On most occasions the skill of writing grant proposals goes by self learning For students it is burdening due to the tremendous time consumed to learn the craft of writing the grant proposal and the exhausting clinical and academic work This book is carefully prepared to keep in mind the difficulties faced by the young researchers and the students concerning choosing a funding agency grant makers expectations budgeting surveillance and site visits rights of the researcher and the funding agency and ethical and legal aspects of obtaining the grant The book also covers the alternate plan for partial funding or interruption of the financing reporting the source of funding and acknowledgment good clinical practice guidelines and dealing with the rejected grant proposal The research projects are often dropped or modified extensively due to the limited resources in the existing facility The researchers are forced to compromise the research objective due to expensive requirements There is a shortage of awareness regarding the availability of funding and grant for the conduct of research Even if the researchers are aware of obtaining the financing there is a lack of training in grant proposal writing which is essential in getting the research funding This book on grant proposal writing for medical and healthcare professionals covers such difficulties and deficiencies It will provide complete companionship from knowing the funding agency to obtaining the grant *The Iowa Arts Council Grantbook for Artists & Nonprofit Organizations* ,1989
