Leica Viva Quick Guide Creating a New Leica SmartNet Server

This guide will take you through the process of creating a New Leica Server using a domain name rather than IP Address. This domain name will allow Leica SmartNet to automatically switch your connection between the Main and Backup Server if required.

The benefit of this connection means that there is less downtime for the customer in switching from the Main Server to the Backup Server if there is a problem with the connection to the Main Server.

This approach uses the same steps for Leica Viva full and Lite modes
