Lemma Abera Journal:

The continental atlas of the distribution of tsetse flies in Africa Cecchi, G.; Paone, M.; de Gier, J.; Zhao, W., 2024-09-24
Tsetse flies Genus Glossina occur in sub Saharan Africa where they transmit trypanosomosis a group of parasitic diseases that affect both animals and humans Tsetse and trypanosomosis are a constant drain on the resources of poor African livestock keepers and they also impose a public health burden Comprehensive data on the geographic distribution of tsetse flies is crucial to design evidence based and cost effective strategies against animal trypanosomosis and it is also important in eliminating the human form of the disease Despite this the latest maps of tsetse distribution in Africa were published several decades ago The present publication provides an update on the geographical distribution of tsetse flies in Africa A total of 669 scientific publications spanning a period of 31 years 1990 2020 provided the input data and almost 7 400 distinct geographical locations were mapped Tsetse flies were recorded from a maximum latitude of 15 North in Senegal to a minimum of 28 5 South in South Africa Data coverage is uneven and no eligible publication was found for Burundi Guinea Bissau Liberia Sierra Leone or Somalia A dearth of information also affects a few other countries such as Angola the Congo the Democratic Republic of the Congo and South Sudan At the level of tsetse species relatively abundant data were identified for the species of major veterinary and public health importance especially of the riverine palpalis and savannah morsitans groups By contrast limited information is available on many species of the forest fusca group The continental atlas of tsetse flies in combination with the upcoming component on animal trypanosomosis can be used by policy makers practitioners and scientists engaged in the control and elimination of tsetse flies and trypanosomosis in Africa It also provides a blueprint for national authorities to develop country level information systems i e national atlases to assist planning and monitoring of control activities at the national and local levels

Mathematical Journal, 1951 **The rising costs of nutritious foods: The case of Ethiopia** Bachewe, Fantu Nisrane, Minten, Bart, 2019-08-27 Costs of healthy diets are worryingly rising in a number of developed and emerging economies However less is known on these costs for developing countries Using price data from a large number of markets in Ethiopia we find that real prices of all nutritionally rich food groups increased significantly between 19 and 62 percent

over the period 2007 to 2016 This contrasts with 1 staple crops grains roots and tubers which did not show any price increase and 2 oils fats and sugar the prices of which decreased substantially Using detailed nationwide datasets and relying on time series methods we link these price increases to changes in local markets demand and supply factors transaction costs and international trade We find that prices of nutritionally rich food groups compared to cereals are relatively less affected by international trade and exchange rate changes but more so by rapidly increasing local and city demand This rising demand is likely due to recent income growth and rapid urbanization and the high income elasticities for nutritious foods in Ethiopia Moreover we find that local production changes affected prices of nutritious items little but national price rises were found to have been significantly linked with food price rises in commercial clusters in the country Changes in transaction costs fuel and transport costs explained relatively little of the observed food price changes

Eating Behavior and Chronic Diseases: Research Evidence from Population Studies Fei Xu,Li Zhao,Xiaoyue Xu,Zumin Shi,2024-07-29 Eating behavior is a major lifestyle related influencing factor of non communicable chronic diseases NCDs particularly overweight obesity and metabolism syndrome MetS Typically eating behavior refers not only to dietary patterns but also to nutrient intake From the public health perspective population based evidence regarding healthy eating is of significance for policy developments regarding NCDs prevention Eating behavior is time and economic status dependent which may change as age or and socio economic status changes This occurs not only in developing societies but also in economically settled communities Therefore although relationships between eating behaviors dietary pattern nutrients intake and specific NCDs have been examined in different societies further investigations of population level associations between eating behavior and NCDs in different subpopulations general community residents elders children or patients etc especially the interaction of eating behavior and other influences e g physical activity on NCDs remains of continuing importance Meanwhile updating the dietary patterns and nutrient intake levels of different subpopulations is also necessary

Water and Society V S. Mambretti,J. L. Miralles i Garcia,2019-12-06 Encompassing papers form the 2019 Water and Society Conference this book is a collection of latest trans disciplinary research on issues related to the nature of water and its use and exploitation by society This book demonstrates the need to bridge the gap between specialists in physical sciences biology environmental sciences and health Over the centuries civilisations have relied on the availability of clean and inexpensive water This can no longer be taken for granted as the need for water continues to increase due to the pressure from growing global population demanding higher living standards Agriculture and industry major users of water are at the same time those that contribute to its contamination Water distribution networks in urban areas as well as soiled water collection systems present serious problems in response to a growing population as well as the need to maintain ageing infrastructures Many technologically feasible solutions such as desalination or pumping systems are energy demanding but as costs rise the techniques currently developed may need to be re assessed The research contained in this book addresses the interaction between water and

energy systems The socio political implications of a world short of clean easily available water are enormous It will lead to realignments in international politics and the emergence of new centres of power in the world The following list covers some of the subjects included in this book Water resources management Agribusiness Water as a human right Water quality Water resources contamination Sanitation and health Water and disaster management Policy and legislation Future water demands Irrigation and water management Management of catchments Groundwater management and conservation The Ethiopian Journal of Higher Education ,2007-06 **Peace Not War: Traditions of Restorative Justice in Imperial Ethiopia, 1769**

- **1960** Charles Schaefer,2025-05-27 Examines one of the few documented early examples of restorative justice from Africa or Latin America With a writing system Ethiopian emperors as well as pretenders to the throne chronicled their exploits including peace building feats and this book showcases and analyses historically verified instances from as early as 1769 where restorative justice modalities were used to resolve conflict and bring peace to the country Peace not War traces Ethiopia s evolving understanding of restorative justice from the forgive and forget approach which characterized the Zemene Mesafint Era of the Princes where perpetrators were exonerated allowing them to recoup and build their armies to fight another day to conditional forgiveness recorded by the imperial court and dependent on atonement Ethiopia s long history of experimentation with different forms of restorative justice demonstrates ingenuity flexibility and adaptability but as the twentieth century progressed workable indigenous forms of restorative justice were sidelined by Western codified law that emphasized retribution **Moral Pedagogies for Africa** Theodros A. Teklu,2021-09-02 This volume engages with issues of moral responsibility and multiethnic co existence in the context of contemporary Africa Post colonial African states are by and large ethnically diverse Constructively managing ethnic diversity however has always been a challenge to these states which often fail to be democratic and all inclusive As a result ethnic enmity and conflicts that obliterate bonds of togetherness between ethnic communities have been rampant throughout the continent In dialogue with Africa s cultural and religious assets this interdisciplinary multi authored book aims at articulating the need to interpret past and present ethnic hostilities in Africa and generating moral resources of togetherness to foster a social pedagogy of responsible cohabitation for Africans The chapters of this volume categorized into two parts are framed according to these two niches **Ethiopian Journal of Education** ,2014 **Journal of Ethiopian Studies** ,2003 *Journal of Ethiopian languages and literature* ,1997 **Ethiopian Medical Journal** ,2008 **Zoonotic Parasitic Diseases in a Changing World** Viliam Šnábel,2021-09-13 **The Crime Problem and Its Correction** Andargatchew Tesfaye,1988 *Journal of Ethiopian law* ,1966-12 *Ethiopia* Paulos Milkias,1989 Proceedings of the International Symposium on the Centenary of Addis Ababa, November 24-25, 1986 Ahmed Zekaria,Bahru Zewde,Taddese Beyene,1987 Northeast African Studies ,2000
