## Jl Zoology Question Paper 21:

*Readers' Guide to Periodical Literature* Anna Lorraine Guthrie, Bertha Tannehill, Neltje Marie Tannehill Shimer, 1925 An author subject index to selected general interest periodicals of reference value in libraries      **The Subject Index to Periodicals**, 1920      *Reader's Guide to Periodical Literature Supplement*, 1922      W. C. McKern and the Midwestern Taxonomic Method R. Lee Lyman, Michael J. O'Brien, 2003 Explores W C McKern's use of Linnaean taxonomy as the model for development of a pottery classification system By the early 20th century North American archaeologists had found evidence of a plethora of prehistoric cultures displaying disparate geographic and chronological distributions But there were no standards or algorithms for specifying when a culture was distinct or identical to another in a nearby or distant region Will Carleton McKern of the Milwaukee Public Museum addressed this fundamental problem of cultural classification beginning in 1929 He modeled his solution known as the Midwestern Taxonomic Method on the Linnaean biological taxonomy because he wanted the ability to draw historical and cultural relationships among cultures McKern was assisted during development of the method by Carl E Guthe Thorne Deuel James B Griffin and William Ritchie This book studies the 1930s correspondence between McKern and his contemporaries as they hashed out the method's nuances It compares the several different versions of the method and examines the Linnaean biological taxonomy as it was understood and used at the time McKern adapted it to archaeological problems Finally this volume reveals how and why the method failed to provide the analytical solution envisioned by McKern and his colleagues and how it influenced the later development of Americanist archaeology      **The Publishers' Circular and Booksellers' Record**, 1921      The Families and Genera of Marine Gammaridean Amphipoda (except Marine Gammaroids) Jerry Laurens Barnard, 1991 This work is a handbook for the identification of gammaridean amphipods to generic level through the use of artificial non phylogenetic keys at the family group level which lead to subsidiary keys to the genera of families or family groups Genera in polytypic families are diagnosed and described sufficiently to fit the taxonomic complications within each group      *Catalogue of Scientific Papers (1800-1900): Supplementary volume. 1800-1883* Royal Society (Great Britain), 1921      **Catalogue of Scientific Papers** Royal Society (Great Britain), 1916      **The Chautauquan**, 1889      **Index-catalogue of the Library of the Surgeon General's Office, United States Army (Army Medical Library)** Army Medical Library (U.S.), 1938      *Book Review Digest*, 1927      **Who's who in Literature** Mark Meredith, 1924 Contains list of fictitious and pseudonymous names      Catalogue of Scientific Papers (1800-1900): ser. 4, 1884-1900 Royal Society (Great Britain), 1916      **Readers' Guide to Periodical Literature**, 1919      Annual Report of the Trustees Together with the Report of the Curator to the Committee on the Museum, 1898      **Teachers Magazine**, 1913      Records of the Australian Museum, 1890      Index-catalogue of the Library of the Surgeon-General's Office, United States Army National Library of Medicine (U.S.), 1938      *A Calendar of the Correspondence of Charles Darwin, 1821-1882* Frederick Burkhardt, Sydney Smith, 1994-03-10 This Calendar is a catalogue

of the letters the editors of the Correspondence of Charles Darwin have found to date Information on the source and location of each letter is given together with a brief summary of the content First published in 1985 the Calendar has been amended to take account of recently discovered material and re interpretations or re dating of known letters A new supplement lists over 1000 amendments to the main body of the text together with over 500 addenda relating to newly discovered material
