

150 FourStroke

Exceeding the boundaries of reliability

Starting with a 3.0 litre block capable of producing more than 250hp, Mariner engineers designed this model to deliver only 150hp and increase the powerhead's long-term durability. Add 10,000 hours of engineering and field testing to the robust gearcase and you've got the most reliable 150hp outboard in the industry.

The 3.0 litre displacement and four-cylinder overhead cam design works less to produce more torque and horsepower so it can go longer and give long-term peace of mind.

With convenient maintenance access to perform basic tasks and a no-spill oil change system, the 150 is super easy to take care of. Plus the small, compact design fits perfectly on a wide range of boats, which also makes it the perfect repower choice.

All this, and it still weighs in at a light, fuel saving 206kg.
