

MICROECONOMICS – PROBLEM SET 1

CONSUMER THEORY – TEXT

TA: Patrice De Micco
patrice.demicco@unibocconi.it

Textbook references for the topics covered in this problem set are:
- *Bernheim and Winston, Microeconomics, Chapters 1, 2, 4 and 5*
- *Microeconomics- Exercises, Chapter 1.*

This problem set consists of 2 sections:

- *First section - True, false or uncertain;*
- *Second section - Exercises.*

First Section – True, false or uncertain

Decide whether the following statements are true, false or uncertain (i.e. they are true only under specific hypothesis not contained in the statement). Justify the answer. [The justification is more important than the initial answer being true, false or uncertain]

1) Serena likes both tennis shoes (good X) and tennis rackets (good Y). At her current consumption bundle (where she spends all her income), her marginal rate of substitution of rackets for shoes is 3, meaning that she is willing to trade 3 rackets for 1 pair of shoes. The price for a racket is \$200 ($p_Y = \200) and the price for a pair of shoes is \$100 ($p_X = \100). Serena could increase her utility by consuming more rackets and less shoes.

2) Carol is indifferent among three bundles. Bundle A includes 40 units of good x and 5 units of good y: $A = (40, 5)$. Analogously, bundle B is $B = (30, 10)$ and bundle C is $C = (10, 20)$. Carol's rate of substitution between good x and good y is constant.

3) Consider a consumer whose utility function is $U(X, Y) = \min[3X, Y]$. Whatever the prices of the two goods, this consumer will always demand three units of X for each unit of Y.

4) The market demand curve of good X is $X = 1000 - 50p$. When price is equal to 10, the price elasticity of demand is -1.

Economics for a Civilized Society G. Davidson, 1996-08-21

Economics for a Civilized Society incorporates both self interest and civic value motivations to provide an understanding of how our economic system works and how we can develop economic policies that assures a prosperous and civil society. Conventional economics policies involving inflation, the money supply, unemployment, international trade and payments require that some people suffer so that others thrive in a zero sum game context. Civilized economic policies will employ all of society's resources to work for the betterment of both individuals, families and the community. From taxes to international trade, the Davidsons show how to surmount today's seemingly intractable economic problems with civilized programmes.
