Japanese Architecture As A Collaborative Process:

Japanese Architecture as a Collaborative Process Dana Buntrock, 2001 Readers will find this book offers them both insights into the nature of architectural practice in their own communities and surprising alternatives **BOOK JACKET**

Materials and Meaning in Contemporary Japanese Architecture Dana Buntrock, 2013-09-13 In this beautiful and perceptive book Dana Buntrock examines for the first time how tradition is incorporated into contemporary Japanese architecture Looking at the work of five architects Fumihiko Maki Terunobu Fujimori Ryoji Suzuki Kengo Kuma and Jun Aoki Buntrock reveals the aims influencing many wonderful works barely known in the West the sensual side of Japanese architecture borne out of approaches often less concerned with professionalism than with people and place The buildings described in this book illustrate an architecture that embraces uniqueness expressing unusual stories in the rough outlines of rammed earth and rust and demonstrating new paths opening up for architectural practice today For some these examples will offer new insight into expressions of tradition in Japanese architecture for others this book offers inspiration for their own efforts to assert the unique heritage of other regions around the world Compelling insightful and groundbreaking this book is essential for everyone studying Japanese architecture and anyone trying to invoke narrative and tradition in contemporary design

Constructing Japan Beate Loeffler, 2025-09-25 The influence of Japanese art and culture on art in late 19th century Europe and America through collections of objects and knowledge transfer is already recognised However the research in this field often neglects architecture This study takes a new approach placing architecture at the centre Through in depth analysis of contemporary textual and visual sources Beate Loeffler shows how western actors from different backgrounds interpreted Japanese architecture as they experienced it either face to face or via texts and images It unveils a complex process of appropriation and rejection of claim to interpretive sovereignty and fascination with the foreign that led to both new knowledge and cultural clichés

Nurturing Dreams Fumihiko Maki, 2012-09-21

Unavailable as a collection until now these essays document both the intellectual journey of one of the world's leading architects and a critical period in the evolution of architectural thought Born in Tokyo educated in Japan and the United States and principal of an internationally acclaimed architectural practice celebrated architect Fumihiko Maki brings to his writings on architecture a perspective that is both global and uniquely Japanese Influenced by post Bauhaus internationalism sympathetic to the radical urban architectural vision of Team X and a participant in the avant garde movement Metabolism Maki has been at the forefront of his profession for decades This collection of essays documents the evolution of architectural modernism and Maki's own fifty year intellectual journey during a critical period of architectural and urban history Maki's treatment of his two overarching themes the contemporary city and modernist architecture demonstrates strong and sometimes unexpected linkages between urban theory and architectural practice Images and commentary on three of Maki's own works demonstrate the connection between his writing and his designs Moving through the successive waves of modernism postmodernism neomodernism and other isms these essays reflect how several generations of architectural thought and expression have been resolved within one career

The Rise of Awards in Architecture Jean-Pierre Chupin, Carmela Cucuzzella, Georges Adamczyk, 2022-09-06 This book is the first scientific study to focus on awards in architecture and the built environment investigating their exponential growth since the 1980s The celebration of excellence in architecture and related fields remains a phenomenon on which there is strangely little scientific scrutiny What is to be understood from the plethora of award winning projects award winning buildings and awarded professional practices in the built environment year after year Glossy images partake in an intense ballet at every local regional national or international award ceremony and they are meant to embody proofs of architectural excellence However it is necessary to take a critical distance to question what awards are meant to embody symbolize and perhaps measure Each of the 10 chapters in this volume is centered on one question related to themes as varied as the comparison of Pritzker and Nobel Prizes the Prix de Rome the redefinition of quality through awards green awards and sustainability the multiplication of sustainable awards heritage awards architecture book awards the awarding of school architecture awards as mediations and awards as pedagogical devices Many fields once consolidated have featured a sharp increase in related prizes The original data compiled and summarized in 4 appendices cover more than 150 award granting organizations in some 30 countries Our inventory includes upwards of 24 000 prizes awarded at more than 3 100 events the earliest of which is the first instance of Western architecture's seminal Grand Prix de Rome in France in 1720 A history of contemporary architecture is thus written through press releases that praise the merits of the heroes as much as their works and achievements And while awards can be vehicles that propel architecture forward they can also be Trojan horses in an era that is constantly on the lookout for event driven products small and big news and brand imaging
