Jim Dine History Of Communism:

Jim Dine Jim Dine, 2014 This history came about because my friends Sarah Dudley and Ulie Kuhle litho printers in Berlin were given about 100 litho stones from a former Socialist art academy in what was the D D R The stones all had images on them drawn by forty years of students under the oppressive regime I asked them to reactivate the stones and print them on Zerkall Paper 450 g m Most images I chose of the 100 were able to have life breathed into them We had finally forty five images They editioned the lithographs and then sent them to us in Walla Walla Washington I drew and ground and bit copper plates to go over them I wanted a black view of the image and a sense of Berlin in the East as I knew it when the horrible wall was still up The etchers who came to work with me every summer over two and a half years have coaxed the exact mood I wanted out of the plates Jim Dine

Architecture Constructed Mark Jarzombek, 2023-04-06 Architecture Constructed explores the central open secret of architecture the long suppressed conflict between arche and teckton between those who design and those who build This unresolved tension has a centuries old history in the discipline persisting through Classical and Renaissance times to the present day and yet it has rarely been addressed through a historical and theoretical lens In this book acclaimed architectural theorist Mark Jarzombek examines this tension head on and uses it to rethink the nature of the history of architecture He reveals architecture to be a troubled interconnected realm incomplete and unstable where labor craft and occupation are the invisible complements to the work of the architect Erudite entertaining and full of surprising and thought provoking juxtapositions and challenges Architecture Constructed is packed with novel insights into the internal conflicts and paradoxes of architecture and is rich with examples from modern and contemporary practice including Mies Koolhaas Potrc Hadid Bawa Diller Scofidio which demonstrate how contemporary architecture inhabits the very same tensions that have riven the discipline since the days of Alberti This provocative book will stimulate conversations among students researchers and designers as it pushes the boundaries on how we define the professional discipline of architecture and overturns entrenched assumptions about the nature of architectural history and theory
