Multilingual Selves and Motivations for Learning Languages other than English in Asian Contexts Anas Hajar, Syed Abdul Manan, 2024-07-16. This edited volume focuses on the experiences of individuals learning languages other than English (LOTEs) in a range of Asian contexts that have traditionally been under represented in the literature. Aligning with the multilingual turn in SLA, it views learners as individuals of a multilingual society with unique complex heterogeneous and dynamic identities. The chapters explore the learners' motivational trajectories, multilingual identities, and their conceptualisations of the ideal multilingual self. This volume enhances our critical understanding of language learning motivation through empirical findings and conceptual insights from studies of motivation in specific regions in Asia, including Greater China, Indonesia, Japan, Kazakhstan, Malaysia, Pakistan, and Syria. Providing insight into the multilingual identities of individuals learning LOTEs, it will appeal to students and scholars in second language acquisition, researchers in language learning motivation, and policymakers in language education.

*Motivation to Learn Multiple Languages in Japan* Chika Takahashi, 2022-11-22. This book provides rare insights into motivation among extremely successful learners of English and languages other than English (LOTEs) through the analysis of a longitudinal study and the examination of the factors involved in becoming multilingual in a non multilingual environment. Based on sixteen interview sessions conducted over the course of nine years while the learners progressed from high school to the world of work, this

book offers the story of how two learners persist in English LOTE learning The study illuminates the long term processes through which the interviewees develop ideal English LOTE selves in an environment where multilingualism is not emphasized and where both English and LOTEs can still be described as foreign languages Educators and researchers will learn from this study which stretches our understanding of motivation beyond the recent theorizing of L2 motivation and contributes to the limited research in long term motivational trajectories and LOTE learning motivation which is particularly scarce in non European contexts The book will be of interest not only to readers in Japan but also to those in other contexts as it offers an example of successful learners who go beyond the pragmatic and instrumentalist view of language learning to hold a more holistic view thus revealing the factors which can sustain multiple language learning even in foreign language contexts
