Smith, 2019-06-03 An introduction to military medicine for medical students new to the military Military medicine is the application of medical art and science in a military setting for the benefit of the military organization through optimal care of the combatant Topics include the history of military medicine leadership the management and treatment of trauma and mass casualties in frequently austere field and ship environments the humane clearing of the battlefield vaccines and protection against exotic global pathogens both manmade and naturally occurring unique psychological stressors of war biodefense against chemical and nuclear weapons facilitating return to duty and the eventual return and reintegration home of valuable human resource This first of its kind textbook offers both authoritative scholarship and the experience of high level medical officers for the new medical officer within any of the armed services ranging from medical surgical nursing dental veterinary

and more It also provides health education and research for the military health professionals deployed to save enlisted military lives and helps to educate medical students with military medical practices and leadership The World's First SWAT Team Leroy Thompson,2012-10-24 In turbulent Shanghai in the years between the World Wars the International Settlement was a mercantile powerhouse that faced unrest from Communist labor unions criminal gangs spies political agitators armed kidnappers and assassins Adjoining the Settlement were the French Concession and the Chinese city both hotbeds of intrigue and crime themselves Called the most sinful in the world the Settlement relied on its police the Shanghai Municipal Police one of the most advanced forces in the world After an incident in 1926 when the police fired upon demonstrators which resulted in unrest and strikes W E Fairbairn was charged with forming a specialized unit to deal with riots and armed encounters The resulting Reserve Unit became the prototype for future SWAT teams as it developed tactics for using snipers in barricade and hostage incidents techniques for use of the submachine gun during raids hostage rescue tactics aggressive riot dispersal tactics and various other tactical innovations Out of the experiences of the unit came many of the techniques later taught by W E Fairbairn E A Sykes Pat O Neill and others to the Commandos Rangers SOE OSS 1st Special Service Force and other Second World War elite units Those same techniques still resonate today with special forces and police tactical units The Marine Corps Gazette ,1972 **Soldier of Fortune** ,2002 *Quantico Leatherneck* ,1943

Course of Instruction in Combat Conditioning ,1944 *The Publishers Weekly* ,1944 **Combat Conditioning Concepts** Usmc The Basic School,2019-03-31 The Marine Corps serves as the nation's expeditionary force in readiness Combat conditioning in the Marine Corps is designed to prepare Marines to physically withstand the rigors of combat All other goals of physical training must support the physical requirements of combat This concept not only develops a more physically fit Marine it also develops an individual who is mentally tough and confident Marine Corps Order 6100.13 states every Marine must be physically fit regardless of age grade or duty assignment Combat conditioning emphasizes the requirement for all Marines to adopt a healthy lifestyle and a lifelong commitment to fitness This combination has a direct and positive impact on job performance and combat readiness The objective of the Combat Conditioning is to offer physical conditioning information that will assist with appropriate well designed fitness programs and workouts that when implemented will benefit the Marine The purpose of this lesson is to teach you the concepts of combat conditioning

Marine Physical Readiness Training for Combat U.S. Marine Corps,2007-09-01 The United States Marine Corps is the largest such force on the planet and yet it is the smallest most elite section of the U S military one with a long and storied history and some of the most rigorous training procedures Here in the most current version of the manual used by the Corps itself is the guidebook used by the service to physically prepare its troops for their dangerous work Areas covered include the fundamentals of physical fitness for Marines development of fitness training programs conditioning drills guerilla exercises the basics of orienteering individual exercise programs the basics of combat water survival team contests and athletics

physical readiness tests and much much more Military buffs athletes and anyone seeking to understand how American armed services train for the ever changing arena of modern warfare will find this a fascinating and informative document **The Leatherneck** ,1963 *The Very Few, the Proud* Nancy P. Anderson,2018 This history follows and examines both the expanding opportunities for women in the Marine Corps and the fading cultural gender distinctions in the last quarter of the twentieth century The work is derived from official documents and personal files interviews conversations letters newspaper articles Internet access to research archives and hundreds of email submissions from current and former Marines The generation of women described in this history proved themselves in every clime and place including in command and in combat Women choose to be Marines for the same reasons as men duty to country opportunity adventure escaping hardship or to grow as a person This history takes us to the start of the twenty first century Provided by publisher *Technical Abstract Bulletin* ,1967 **Combat Conditioning: The Need for Stronger Marines** ,2008 Who is stronger The Marine who can run three miles in 18 00 minutes complete 20 pull ups and 100 crunches or the Marine that can run the obstacle course three times with combat gear in 15 00 minutes but cannot run three miles in 18 00 minutes or complete 20 pull ups Combat conditioning should be the primary fitness program of the Marine Corps because of the demands of the increased loads placed on the body and the strength needed to complete the physical tasks placed on Marines while under these loads Every Marine would agree that some form of physical training is necessary to maintain a Marine Corps that is prepared to accomplish the tasks needed to win its battles This physical training needs to encompass the whole Marine and not just the cardiovascular system When done correctly the cardiovascular system will also benefit from implementing Combat Conditioning The final result is a stronger Marine who is better prepared for the rigors of combat This program is now in place at all entry level facilities All young Marines will be prepared to continue this challenging physical training program It is our responsibility to ensure that our Marines are in the best physical condition to assist in bringing them home in one piece

The American Military Ethic James Hugh Toner,1992-01-22 This is a book about military professionals It outlines the personal reflections of a U S Army lieutenant captain on active duty in Europe during the Vietnam War There the enemy was drugs boredom racism and illiteracy Few if any books concern the Vietnam era veteran The American Military Ethic tells the story of one such veteran of basic combat training of Infantry OCS and of airborne school who had charge of a nuclear weapons unit in Europe during the late 1960s and early 1970s First person accounts are blended with a more traditional scholarly examination of professional military training for junior and senior officers ROTC and the war colleges and of the American military ethic itself Toner argues that the American military ethic has undergone a deserved rejuvenation The ethic itself which is the source of true professionalism has a sacred character for it involves its professors in a solemn oath to preserve and to protect the republic That mission can lead officers to the ultimate test of leadership whether to accomplish the mission or to safeguard the people for whom the leader is responsible Still this book is not of the guts and glory variety It

is a study in practical real leadership it examines leadership problems of the type real junior officers confront daily and it explores the kinds of ethical problems real senior officers frequently confront Its thesis is this A professional military ethic depends ultimately upon the formation of responsible character in and by its leaders for that sound education is a necessity ROTC and senior professional military education depend therefore upon challenging serious and substantial academic experiences In the end the American military ethic is a function of the wisdom and virtue learned and taught by its officers This volume will be of great interest to active duty military professionals students of military history and veterans of the Vietnam era
