American Business Since 1920 Thomas K. McCraw, William R. Childs, 2017-11-30 Tells the story of how America's biggest companies began, operated and prospered post World War I. This book takes the vantage point of people working within companies as they responded to constant change created by consumers and technology. It focuses on the entrepreneur, the firm and the industry by showing from the inside how businesses operated after 1920 while offering a good deal of Modern American social and cultural history. The case studies and contextual chapters provide an in-depth understanding of the evolution of American management over nearly 100 years. **American Business Since 1920: How It Worked** presents historical struggles with decision making and the trend towards relative decentralization through stories of extraordinarily capable entrepreneurs and the organizations they led. It covers Henry Ford and his competitor Alfred Sloan at General Motors during the 1920s; Neil McElroy at Procter & Gamble; Ferdinand Eberstadt at the government's Controlled Materials Plan during World War II; David Sarnoff at RCA in the 1950s and 1960s; and Ray Kroc and his McDonald's franchises in the late twentieth century and early twenty-first century and more. It also delves into such modern success stories as Amazon.com, eBay and Google. Provides deep analysis of some of the most successful companies of the 20th century. Contains topical chapters covering titans of the 2000s. Part of Wiley Blackwell's highly praised American History Series. **American Business Since 1920: How It Worked** is designed for use in both basic and advanced courses in American history at the undergraduate and graduate levels.

No Speed Limit Steven Shaviro, 2015-01-30 Accelerationism is the bastard offspring of a furtive liaison between Marxism and science fiction. Its basic premise is that the only way out is the way through: to get beyond capitalism, we need to push its technologies to the point where they explode. This may be dubious as a political strategy, but it works as a powerful artistic program. Other authors have debated the pros and cons of accelerationist politics. **No Speed Limit** makes the case for an accelerationist aesthetics. Our present moment is illuminated both for good and for ill in the cracked mirror of science-fictional futurity. **Forerunners: Ideas First** is a thought in process series of breakthrough digital publications. Written between fresh ideas and finished books, **Forerunners** draws on scholarly work initiated in notable blogs, social media conference plenaries, journal articles and the synergy of academic exchange. This is gray literature publishing where intense thinking, change and speculation take place in scholarship.
