Nationalism and Conflict Management Eric Taylor Woods, Robert Schertzer, Eric Kaufmann, 2013-09-13 Ethno national conflict is one of the central issues of modern politics Despite the emergence of approaches to managing it from nation building to territorial autonomy in recent years the application of these approaches has been uneven Old conflicts persist and new ones continually emerge The authors of this book contend that what is needed to drive forward the theory and practice of ethno national conflict management is a more nuanced understanding of ethnicity and nationalism The book addresses this issue by linking theories of ethnicity and nationalism to theories of conflict management Its contributors share a common goal of demonstrating that a nuanced understanding of ethnicity and nationalism can beneficially inform conflict management in theory and practice To do so they analyse both hot and cold conflict zones as well as cases that have been important in the development of the most widely used conflict management models The book is aimed at those interested in the theory and practice of ethno national conflict management as well as the study of ethnicity and nationalism It is well suited for undergraduate and advanced research students experts and policy makers This book was originally published as a special issue of Commonwealth and Comparative Politics [The Territorial Management of Ethnic Conflict](#) John
