Manhattan Project Report:

Now It Can Be Told Leslie M. Groves, 2024-09-24 A first person account of the Manhattan Project by the general who hired and worked alongside Robert Oppenheimer General Leslie Groves and J Robert Oppenheimer were the two men chiefly responsible for the building of the first atomic bomb at Los Alamos code name the Manhattan Project As the ranking military officer in charge of marshaling men and material for what was to be the most ambitious expensive engineering feat in history it was General Groves who hired Oppenheimer with knowledge of his left wing past planned facilities that would extract the necessary enriched uranium and saw to it that nothing interfered with the accelerated research and swift assembly of the weapon This is his story of the political logistical and personal problems of this enormous undertaking which involved foreign governments sensitive issues of press censorship the construction of huge plants at Hanford and Oak Ridge and a race to build the bomb before the Nazis got wind of it The role of Groves in the Manhattan Project has always been controversial In his new introduction the noted physicist Edward Teller who was there at Los Alamos candidly assesses the general's contributions and Oppenheimer's while reflecting on the awesome legacy of their work The basic story is as strange as any chapter in American history and its drama is heightened by the general's candor and restraint The New Yorker

The Manhattan Project Francis George Gosling, 1999 A history of the origins and development of the American atomic bomb program during WWII Begins with the scientific developments of the pre war years Details the role of the U S government in conducting a secret nationwide enterprise that took science from the laboratory and into combat with an entirely new type of weapon Concludes with a discussion of the immediate postwar period the debate over the Atomic Energy Act of 1946 and the founding of the Atomic Energy Commission Chapters the Einstein letter physics background 1919 1939 early government support the atomic bomb and American strategy and the Manhattan district in peacetime Illustrated

Nagasaki Paul Ham, 2014-08-05 A history and analysis of the WWII nuclear bombings of Japan from a master of engrossing and exciting narrative Los Angeles Review of Books In this harrowing history of the Hiroshima and Nagasaki bombings Paul Ham argues against the use of nuclear weapons drawing on extensive research and hundreds of interviews to prove that the bombings had little impact on the eventual outcome of the Pacific War More than 100 000 people were killed instantly by the atomic bombs mostly women children and the elderly Many hundreds of thousands more succumbed to their horrific injuries later or slowly perished of radiation related sickness Yet American leaders claimed the bombs were our least abhorrent choice and still today most people believe they ended the Pacific War and saved millions of American and Japanese lives In this gripping narrative Ham demonstrates convincingly that misunderstandings and nationalist fury on both sides led to the

use of the bombs Ham also gives powerful witness to its destruction through the eyes of eighty survivors from twelve year olds forced to work in war factories to wives and children who faced the holocaust alone Hiroshima Nagasaki presents the grisly unadorned truth about the bombings blurred for so long by postwar propaganda and transforms our understanding of one of the defining events of the twentieth century Praise for Hiroshima Nagasaki Moral anger drives Mr Ham Ordinary Japanese Mr Ham believes were less emperor worshipping fanatics than victims of an authoritarian elite that prolonged the war with no regard for their hardships The Wall Street Journal Ham presents a forceful argument that the bombing was excessive and unjustified In this sweeping and comprehensive history Ham details the geopolitical considerations and huge egos behind evolving theories of warfare But most powerful are the eyewitness accounts of 80 survivors ordinary people caught up in the events of war Booklist starred review
