Its Your Ship By Captain D Michael Abrashoff:

It's Your Ship Captain D. Michael Abrashoff, 2007-10-15 The legendary New York Times bestselling tale of top down change for anyone trying to navigate today's uncertain business seas When Captain Abrashoff took over as commander of USS Benfold it was like a business that had all the latest technology but only some of the productivity Knowing that responsibility for improving performance rested with him he realized he had to improve his own leadership skills before he could improve his ship Within months he created a crew of confident and inspired problem solvers eager to take the initiative and responsibility for their actions The slogan on board became It's your ship and Benfold was soon recognized far and wide as a model of naval efficiency How did Abrashoff do it Against the backdrop of today's United States Navy Abrashoff shares his secrets of successful management including See the ship through the eyes of the crew By soliciting a sailor's suggestions Abrashoff drastically reduced tedious chores that provided little additional value Communicate communicate communicate The more Abrashoff communicated the plan the better the crew's performance His crew eventually started calling him Megaphone Mike since they heard from him so often Create discipline by focusing on purpose Discipline skyrocketed when Abrashoff's crew believed that what they were doing was important Listen aggressively After learning that many sailors wanted to use the GI Bill Abrashoff brought a test official aboard the ship and held the SATs forty miles off the Iraqi coast From achieving amazing cost savings to winning the highest gunnery score in the Pacific Fleet Captain Abrashoff's extraordinary campaign sent shock waves through the U S Navy It can help you change the course of your ship no matter where your business battles are fought

Summary of It's Your Ship SellWave Audio, 2025-10-31 In It's Your Ship Captain D Michael Abrashoff recounts his remarkable transformation of the USS Benfold turning it from a moderately performing vessel into a model of efficiency morale and initiative When he assumed command Abrashoff realized that improving the ship's performance required first improving his own leadership By focusing on the people under his command he created a culture of responsibility engagement and empowerment that allowed every sailor to take ownership of the ship's success Central to Abrashoff's approach was seeing the ship through the eyes of the crew He

actively solicited suggestions cutting unnecessary tasks and streamlining operations to maximize efficiency This focus on removing meaningless work not only improved productivity but also fostered a sense of purpose among sailors who felt their contributions truly mattered Communication was another pillar of his leadership philosophy Abrashoff made himself highly accessible sharing plans updates and goals frequently earning the nickname Megaphone Mike from his crew His transparency built trust aligned the team and encouraged proactive problem solving He also emphasized disciplined purpose ensuring that every task had meaning and contributed to the ship s larger mission Listening aggressively was a hallmark of Abrashoff s leadership By paying attention to the aspirations and needs of his crew such as their educational goals he implemented programs like holding the SATs onboard even forty miles off the Iraqi coast This commitment to personal growth reinforced loyalty and engagement creating a motivated and innovative team Through these strategies Abrashoff achieved extraordinary results from significant cost savings to earning the highest gunnery scores in the Pacific Fleet It s Your Ship demonstrates that effective leadership is about empowering people communicating clearly and focusing on purpose lessons that can be applied far beyond the Navy to any organization seeking transformative results Get Results, Not Salutes D. Michael Abrashoff,2010-02-01 Give people power to do their job and clear the decks of anything that keeps them from doing it and leave your ego on shore That s the advice of D Michael Abrashoff author of The New York Times and The Wall Street Journal bestseller It s Your Ship Our ship USS Benfold was serving in the Persian Gulf in the 1997 Iraq crisis and the entire U S fleet there was snagged in a giant communications snafu At any moment some 7 000 messages could go astray or just stop moving Ironically Benfold and many other ships were equipped with a new satellite system for launching Tomahawk missiles But most radio operators hadn t been trained to use it for anything besides launching missiles Not so John Rafalko who pored over its manuals and told me it could solve all our communications problems I reported this to the admiral s chief of staff for communications who rejected the idea With the fleet verging on chaos I went over his head and told the admiral who erupted chewed out his subordinate and ordered him to adopt Rafalko s plan immediately We flew John all over the Gulf to train other operators and suddenly the whole fleet was communicating seamlessly This radioman saved the Navy s bacon My only role was to listen and back him up **Get Your Ship Together** D. Michael Abrashoff,2005 The bestselling author of It s Your Ship shares the team building wisdom of some of the smartest leaders readers have never heard of **Changing a Troubled Ship's Course** D. Michael Abrashoff,2010-02-01 Figure out what s wrong enlist your people in the cause of fixing it persuade them to take ownership and never declare victory That s the advice of D Michael Abrashoff author of The New York Times and The Wall Street Journal bestseller It s Your Ship on how to turn around any organization The Atlanta Falcons hit rock bottom the day a tornado ripped off half of its stadium s roof By then their charismatic quarterback Michael Vick was in prison for leading a dog fighting ring Their coach Bobby Petrino had defected in mid season to college football They d won only four games in 2007 losing 12 They weren t just defeated they were

demoralized beaten losers It was up to their owner Arthur Blank cofounder of Home Depot to turn this sorry situation around And in one of the deftest performances I ve ever heard of he did By the end of 2008 the Falcons had gone to the playoffs with an 11 5 record Their new coach Mike Smith was NFL Coach of the Year Their quarterback Matt Ryan was NFL AP Offensive Rookie of the Year This is the season of miracles Blank said But the miracles all traced to the careful moves he d made

What I Learned at the Naval Academy D. Michael Abrashoff,2010-02-01 The more insecure you feel the more frightening situations become That s because most people resist making matters worse Suppose you do the opposite Accept fear treat it like a passing shower and focus on things you control Your demons vanish These and other tonics for hard times come from Mike Abrashoff who discovered joyfulness as a plebe at Annapolis It may sound unfeeling but I notice that hard times aren t all bad They force people with or without jobs to stay calm overcome reverses make the best of whatever happens They re often the most fertile times for growing what every business needs proven leaders Right now companies everywhere are stretching their people to work harder and do more with less In this Darwinian situation the winners are those who accept being stretched but on terms favorable to themselves That doesn t mean the winners are all me firsters In a healthy organization the most valued stretchers are those who benefit the whole enterprise not just themselves They re the next leaders in waiting [Listen Up!](#) D. Michael Abrashoff,2010-02-01 Leading without listening is like walking in the dark You need to know what your crew customers and suppliers think so listen hard and pounce on every good idea you hear That said it s not as easy as you think A leader who hasn t learned to listen is working under a huge handicap It may be possible to lead without listening Douglas MacArthur style but that approach is twice as hard half as fast and prone to disaster Even as I rose through the ranks of the Navy I found that listening didn t always come naturally to me Often I merely pretended to hear people How many times had I barely glanced up from my work when a sailor or officer came up to the bridge or into my cabin I wasn t paying attention I was marking time until I could give orders When I took command of Benfold I was determined to do things differently and I had to move fast In two months we would deploy to the Middle East and we weren t ready *How to Get Your Crew to Take the Wheel* D. Michael Abrashoff,2010-02-01 How do you get people to take initiative The New York Times and The Wall Street Journal bestselling author Captain D Michael Abrashoff says the answer is One build their confidence by giving them an unexpected opportunity to shine Two encourage challenges to established wisdom and authority Three keep increasing expectations *How to Boost Your Crew's Morale* D. Michael Abrashoff,2010-02-01 Companies and ships have this in common Success depends heavily on crew morale the eagerness born of spirit zeal and zest You can t buy morale much less bribe or bully it into existence But you can sharply boost it at little or no cost by spicing serious work days with unserious good times These are difficult times in the business world No company or job is safe anymore And the fear of unemployment is real for many people In some respects high morale can be defined as having faith that your company s business prospects will mean that you continue to have a job However we must all strive for greater

excellence in the workplace even in tough times Every manager s worst nightmare is a workplace full of enemies angry bitter bored people who despise their bosses along with themselves The next worse nightmare is a workforce of robots who do their jobs as convicts do time with zero creativity enthusiasm or loyalty to the company and its goals In both cases leaders have themselves mainly to blame Along with myopic hiring they create and perpetuate dysfunctional companies by not seizing their power and duty to humanize the workplace lighten up the climate and help people actually enjoy their jobs
