**Managerial Economics** Christopher Thomas,S. Charles Maurice,2010-01-27 The goal of Thomas and Maurice s Managerial Economics has always been and continues to be to teach students the economic way of thinking about business decision and strategy This edition continues to develop critical thinking skills and provides students with a logical way of analyzing both the routine decisions of managing the daily operations of a business as well as the longer run strategic plans that seek to manipulate the actions and reactions of rival firms Managerial Economics has always been a self contained textbook that requires no previous training in economics While maintaining a rigorous style this book is designed to be one of the most accessible books in managerial economics from which to teach and learn because of its clarity of presentation and strong end of chapter problems Rather than parading students quickly through every interesting or new topic in microeconomics and industrial organization this 10th edition instead carefully develops and applies the most useful concepts for business decision making and strategic planning

Seeking Adam Smith: Finding The Shadow Curriculum Of Business Eli P Cox Iii,2017-03-17 Seeking Adam Smith provides a fascinating insider s explanation for why business school faculty members including the author bear some responsibility for the highly destructive corporate practices evident throughout the first sixteen years of the 21st century Since the Great Recession substantial resources and effort have been expended to incorporate ethics and corporate social responsibility into business curricula The effectiveness of these efforts has been limited because they have little impact on the technical and core business courses serving as the gateway to the highest paying jobs Students and practitioners may be led to conclude falsely that the business world is an ethics free zone Seeking Adam Smith demonstrates that greed is highly destructive motive for conducting business and the notion that greed is good is nowhere to be found in the Wealth of Nations despite

claims by some of the world's leading economists Cox offers alternative economic perspectives that are more realistic and less prone to misuse than those permeating the current business curricula Seeking Adam Smith also contains a forward written by Thomas J Ward who served as Senior Managing Partner of Bear Stearns during its demise and an afterward by Sherron Watkins Enron whistleblower and Time Person of the Year 2002
