Managing Democracy Managing Dissent:

Managing Democracy, Managing Dissent Rebecca Fisher, 2014-12 Managing Democracy Managing Dissent comprises of twenty essays written by writers academics and activists and edited by Corporate Watch researcher Rebecca Fisher which collectively argue that in today's democracy elite interests are served by the limitations placed upon popular participation in decision making by the manipulation of public opinion through propaganda and from the attempts to co-opt marginalise and or repress oppositional politics This ground breaking book reveals how despite its inherently anti democratic nature global capitalism is dependent upon the manipulation of the concept of democracy to survive It thus exposes a potential weakness at the heart of capitalism which activists and campaigners can usefully target in their struggle against oppression and environmental destruction The volume includes examinations of the inherent contradiction between genuine democracy and corporate capitalism the use of corporate media the entertainment industry and celebrity activists as propaganda vehicles the attempts to co-opt and neutralise NGOs and social movements the demonisation and repression of unco-opted dissent and the imperialist agendas behind so called democracy promotion interventions Publisher description [Advocacy NGOs and the Neoliberal Pacification of the Demands of the Street](#) Juan Francisco Palma Carvajal, 2021-08-04 This book critically explores the role of two advocacy NGOs actively involved in processes of education policymaking during the recent education reforms carried out in Chile the country known as the first laboratory of neoliberalism around the world Based on Foucault's theoretical work on governmentality the book argues that neoliberalism as a form of governmentality has permeated in Chilean policymaking generating new forms of domination through freedom by situating NGOs as active and responsible subjects of government In this way this volume contests the supposed benefits of NGOs as a force to enhance democracy and foment social participation arguing instead that NGOs image as representatives of civil society can be used to pacify social movements demands for radical change and build a political consensus that serves to legitimate government interests in policymaking **Authoritarianism in All its Guises** Daniel Burston, Kurt Jacobsen, 2025-03-31 Authoritarianism in All its Guises provides an interdisciplinary assessment of contemporary experiences of authoritarianism Drawing on psychoanalysis and critical theory contributors from a range of academic backgrounds consider authoritarianism as it manifests in a range of movements and contexts The chapters investigate interrogate and in some cases clash creatively and revealingly over the meanings of contemporary experiences of authoritarianism across the political spectrum The issues raised here not only compel us to come to grips with and clarify what constitutes modern authoritarianism but also what defines the Left in this stubbornly neoliberal age Authoritarianism in All its Guises will be essential reading for academics and students of psychoanalysis political and social psychology sociology history and media and cultural studies **Sociology in Post-Normal Times** Charles Thorpe, 2022-02-28 The Covid 19 pandemic and the disruptions of climate change are features of post normal times In Sociology in Post Normal Times Charles Thorpe contends that the modern project of creating

normalcy within the nation state has broken down Integral to this is sociology which is the science of social reform Drawing from the work of seminal theorists such as Zygmunt Bauman and Anthony Giddens Thorpe contends that sociology's society is no longer viable because globalization has put an end to social reform thus the assumptions and goals of sociology must be left behind in order to create a new global humanity In the face of the pandemic and climate change Sociology in Post Normal Times demands no less than the birth of a global humanity beyond nation states as the precondition for human survival

Routledge Handbook of Radical Politics Ruth Kinna, Uri Gordon, 2019-05-16 Successive waves of global protest since 1999 have encouraged leading contemporary political theorists to argue that politics has fundamentally changed in the last twenty years with a new type of politics gaining momentum over elite representative institutions The new politics is frequently described as radical but what does radicalism mean for the conduct of politics Capturing the innovative practices of contemporary radicals Routledge Handbook of Radical Politics brings together leading academics and campaigners to answer these questions and explore radicalism's meaning to their practice In the thirty five chapters written for this collection they collectively develop a picture of radicalism by investigating the intersections of activism and contemporary political theory Across their experiences the authors articulate radicalism's critical politics and discuss how diverse movements support and sustain each other Together they provide a wide ranging account of the tensions overlaps and promise of radical politics while utilising scholarly literatures on grassroots populism to present a novel analysis of the relationship between radicalism and populism Routledge Handbook of Radical Politics serves as a key reference for students and scholars interested in the politics and ideas of contemporary activist movements

The Politics and Law of Democratic Transition Sonia Zaman Khan, 2017-10-25 Peaceful legal and political changing of the guards is taken for granted in developed democracies but is not evident everywhere As a relatively new democracy marred by long periods of military rule Bangladesh has been encountering serious problems because of a prevailing culture of mistrust weak governance institutions constant election manipulation and a peculiar socio political history which between 1990 and 2011 led to a unique form of transitional remedy in the form of an unelected neutral caretaker government CTG during electoral transitions This book provides a contextual analysis of the CTG mechanism including its inception operation manipulation by the government of the day and abrupt demise It queries whether this constitutional provision even if presently abolished after overseeing four acceptable general elections actually remains a crucial tool to safeguard free and fair elections in Bangladesh Given the backdrop of the culture of mistrust the author examines whether holding national elections without a CTG or an umpire of some kind can settle the issue of credibility of a given government The book portrays that even the management of elections is a matter of applying pluralist approaches Considering the historical legacy and contemporary political trajectory of Bangladesh the cause of deep rooted mistrust is examined to better understand the rationale for the requirement emergence and workings of the CTG structure The book unveils that it is not only the lack of nation building

measures and governments wish to remain in power at any cost which lay behind the problems that Bangladesh faces today Part of the problem is also the flawed logic of nation building on the foundation of Western democratic norms which may be unsuitable in a South Asian cultural environment Although democratic transitions on the crutch of the CTG have been useful in moments of crisis its abolition creates the need for a new or revised transitional modality perhaps akin to the CTG ethos to oversee electoral governance which will have to be renegotiated by the polity based on the people s will The book provides a valuable resource for researchers and academics working in the area of constitutional law democratic transition legal pluralism and election law

Global Capitalism and the Crisis of Humanity William I. Robinson,2014-07-28 This exciting new study provides an original and provocative expos of the crisis of global capitalism in its multiple dimensions economic political social ecological military and cultural Building on his earlier works on globalization William I Robinson discusses the nature of the new global capitalism the rise of a globalized production and financial system a transnational capitalist class and a transnational state and warns of the rise of a global police state to contain the explosive contradictions of a global capitalist system that is crisis ridden and out of control Robinson concludes with an exploration of how diverse social and political forces are responding to the crisis and alternative scenarios for the future

The Corporate Criminal Steve Tombs,David Whyte,2015-03-27 Drawing upon a wide range of sources of empirical evidence historical analysis and theoretical argument this book shows beyond any doubt that the private profit making corporation is a habitual and routine offender The book dissects the myth that the corporation can be a rational responsible citizen It shows how in its present form the corporation is permitted licensed and encouraged to systematically kill maim and steal for profit Corporations are constructed through law and politics in ways that impel them to cause harm to people and the environment In other words criminality is part of the DNA of the modern corporation Therefore the authors argue the corporation cannot be easily reformed The only feasible solution to this crime problem is to abolish the legal and political privileges that enable the corporation to act with impunity

Personnel Management Abstracts ,1973 Managing World Economic Change Robert A. Isaak,1995 This text utilizes the standard of laissez faire free market ideology as a springboard to analyze global economic change This edition focuses on how change is managed in the post capitalist global economy of the 1990s stressing the human strategic and political dimensions

New Directions for International Relations Alex Mintz,Bruce Russett,2005-02-11 Why does the academic study of international relations have limited impact on the policy community In *New Directions for International Relations* Mintz and Russett identify differences in methods of analysis as one cause of problematic unreliable results They discuss the problem and set the stage for nine chapters by diverse scholars to demonstrate innovative new developments in IR theory and creative new methods that can lay the basis for greater consensus

International Review of Public Administration ,2008 **Managing Dissent** Heather A. Sullivan,2013 This dissertation is an exploration of protest and its management in Mexico It seeks to understand not only the factors that

increase the likelihood of protest success but also those that increase violence either on the part of state actors in the form of protest event repression or on the part of protesters in the form of protest violence The central argument is that state capacity plays a key role in shaping protest and its management Protest management is a complex task requiring institutional resources and skilled state authorities In short state agents must know when and how to intervene When states have high capacity they are better able to avoid violence and employ a conciliatory approach When states lack capacity protest management tends to break down making both repression and violence on the part of protesters more likely The argument is tested using original micro level data on Mexican protest events and responses and leverages within country variations in democracy and state capacity In making the argument the study also makes a case for a particular conception of state capacity emphasizing the state s ability to penetrate society and implement binding rules I demonstrate that there is a greater likelihood of concessions in high capacity states while repression and protest violence are more likely in low capacity states
