The result is a novel micro structural perspective on organizations which aims to both expand and narrow current thinking. The new perspective takes an expansive view on the kinds of phenomena that can be studied in terms of organization design such as cross functional teams, strategic partnerships, buyer supplier relations, alliance networks, mega projects, post merger integration, business groups, open source communities and crowdsourcing besides traditional concerns with bureaucratic organizations. At the same time, this approach narrows focus by abstracting away from the variety and complexity of organizations to a few fundamental and universal problems of organizing that relate to how they aggregate their members' efforts as well as a few reusable building blocks, microstructures which capture common patterns of interaction between members of an organization.

The microstructural approach to organizations will be of interest to researchers and PhD students in management organization science and strategy *Connect Managing Organizational Behavior 1-Semester Access Card for Baldwin 2e* Robert Rubin,Bill Bommer,Timothy Baldwin,2012-02-22 Connect Management is available with Baldwin Managing Organizational Behavior 2e Connect Management is McGraw Hill s web based assignment and assessment platform that connects you and your students to the coursework Interactive Applications provided for each chapter of the textbook allow instructors to assign application focused interactive activities engage students to do management stimulate critical thinking and reinforce key concepts Students apply what they ve learnt and receive immediate feedback Instructors can customize these activities and monitor student progress The following 5 types of Interactive Applications were developed based on actual book specific content oVideo Case Video Cases have been designed to engage the student through interactive content that goes beyond basic recall and multiple choice Contrary to the standard videos on the market which provide a passive learning experience these videos force students to think critically on the fly and apply and practice chapter concepts With the contribution of Bob Marx a leader in the field of Organizational Behavior the authors have developed several video cases that will leave students with memorable one of a kind experiences with OB concepts and their applications in life and career situations oDrag and Drop These fun and interactive exercises motivate students to apply concepts within the context of a scenario or case oComprehension Case These cases generate a deeper understanding of the core concepts by applying chapter concepts in an open ended question format They are the most difficult interactive applications in Connect and are the only exercises that are manually graded oCase Analysis Written by the authors and leaders in the OB field the case analysis exercise directs students to apply the chapter s objectives to a real world based company individual and determine the best course of action for the company individual through a series of multiple choice questions Connect Management gives students access to an integrated eBook allowing for anytime anywhere access to the textbook With each homework problem directly mapped to the topic in the book the student is only one click away from the textbook The eBook also includes a powerful search function that allows students to quickly scan the entire book for relevant topics Connect Library Resources McGraw Hill Irwin Management is excited to provide a one stop shop for our wealth of assets making it quick and easy for instructors to locate specific materials to enhance their course The Asset Gallery in the Connect Library includes all our non text specific management resources Self Assessments Test Your Knowledge exercises and Videos along with supporting PowerPoint and Instructor Manual materials Among these resources is the invaluable Manager s Hot Seat videos
