SCALE  
0.1 100

SCALE  
0.1 100

Instructions for use of the maneuvering board are given in the following paragraphs. The board is used to determine the relative motion of two ships, to find the course and speed of one ship relative to another, and to find the course and speed of one ship relative to a third ship. The board is also used to find the time of collision and the distance of closest approach.

Use only the maneuvering board, with the scales, for finding the relative motion of two ships, and for finding the time of collision and the distance of closest approach.
