

## Sample After Action Report Template

**Note:** The "Exercise Goals and Objectives" section is used to briefly list the goals and objectives for the exercise. These are developed during the exercise planning and design phase and are used to define the scope and content of the exercise as well as the organizations that will participate. List each Goal followed by the Objective for the respective Goal.

### Exercise Events Synopsis

---

**Note:** The "Exercise Events Synopsis" section is used to provide an overview of the scenario used to facilitate exercise play and the actions taken by the players to respond to the scenario. The activities are presented in the general sequence and timeline that they happened at each site. The events synopsis provides officials and players with an overview of what happened at each location and when. It is also used to analyze the effectiveness of the response, especially the time sensitive actions. It provides a means of looking at the ramifications of one action not happening when expected on actions taken by other players and on the overall response. The "Exercise Events Synopsis" should include the synopsis, the modules for the exercise, and a timeline of events for each element of play.

### Objectives-based Evaluations

Identify the changes/improvements needed in your emergency plans and procedures (ERP), if applicable, and any other applicable documents that may be evaluated.
