Turbulent Decade Jiaqi Yan, Gao Gao, 1996-01-01 The Great Proletarian Cultural Revolution occurred in the second decade after Mao Zedong and his comrades came to power in 1949 A comprehensive narrative account of this colossal event written by Yan Jiaqi one of the principal leaders of China's pro democracy movement and his wife Gao Gao a noted sociologist appeared in Hong Kong in 1986 and was quickly banned by the Communist government Not surprisingly censorship and restricted circulation in China resulted in underground reproduction and serialization The work was thus widely read coveted and appreciated by a populace who had just freed itself from the cultural drought and political dread of the event Yan and Gao later spent two years revising and expanding their work The present volume *Turbulent Decade A History of the Cultural Revolution* is based on the revised edition and has been masterfully edited and translated by D W Y Kwok in consultation with the authors Following Professor Kwok's eloquent introduction and a short foreword in which the authors analyze the basic causes of the Cultural Revolution Part One of the narrative focuses on the years 1965-1967 In two short years Mao managed to turn public opinion against Liu Shaoqi president of the Republic and launch the Cultural Revolution The reader is introduced to the Red Guards and encounters the cult of personality the first resistance to the Cultural Revolution the attack on Zhou Enlai and the persecution and death of Liu Shaoqi Part Two examines the rise and fall of Lin Biao during the years 1959-1971 Lin's bid for power which began with the consolidation of his personal clique in the army and mass level persecution in the late stages of the Cultural Revolution ended in a failed coup and his death in an air crash Part Three follows Jiang Qing from 1966 to her arrest in 1976 for her part in instigating mass violence and the persecution of key figures including Zhou Enlai During this period the political fortunes of Deng Xiaoping rose and fell for a second time the first protest at Tiananmen Square in 1976 ended in a bloody suppression and that same year the Gang of Four were arrested Unlike social scientific treatments of political phenomena *Turbulent Decade* includes little discussion of economics still less of international relations and no institutional analysis Instead the authors' fervent belief in the truthful telling of history through its leading personalities pervades the work

The Critic, 1901 *Visions and Re-visions* Robert M. Philmus, 2005-01-01 The former editor of *Science Fiction Studies* Robert M. Philmus now casts his expert eye on a diverse range of short stories and novels by the premier creators of science fiction including George Orwell C. S. Lewis and Ursula LeGuin With essays on such masters of the genre as Stanislaw Lem Kurt Vonnegut and Philip K. Dick the volume provides an in-depth textual examination of science fiction as a truly revisionary genre *Visions and Revisions* will be of immense value to scholars of literature and science fiction studies [Old and New](#), 1875 *The Shrewsbury Edition of the Works of Samuel Butler: Collected essays* Samuel Butler, 1925 *The Living Universe* Duane Elgin, 2009-04-01 By the bestselling author of *Voluntary Simplicity* over 150,000 sold Brings together cutting edge science and ancient spiritual wisdom to demonstrate that the universe is a living sentient system and that we are an

integral part of it Explores the power of this new paradigm to move humanity toward a sustainable and promising future Science has traditionally regarded the universe as mostly made up mostly of inert matter and empty space At one time this point of view was liberating part of the Enlightenment born rationalism that helped humanity free itself from superstition and fear and achieve extraordinary intellectual and technological breakthroughs But this paradigm has outlived its usefulness It has led to rampant materialism and environmental degradation if the universe is essentially dead and we are alive then the inanimate stuff of the universe should be ours to exploit But we now know that not only is the view of a dead universe destructive it is also inaccurate and misleading In *The Living Universe* Duane Elgin brings together evidence from cosmology biology physics and even his participation in NASA sponsored psychic experiments to show that the universe is permeated by a living field and that we are always in communion with that field of aliveness whether we are conscious of it or not This is a world view that as Elgin explains is shared by virtually every spiritual tradition and the implications of it are vast and deep In a living system each part is integral to the whole so each of us is intimately connected to the entire universe Elgin eloquently demonstrates how our identity manifests itself on a whole series of levels from subatomic to galactic We are he writes far more than biological beings we are beings of cosmic connection and participation To confront our ongoing planetary crisis of dwindling resources and escalating conflict we need to move past an ideology of separation competition and exploitation Duane Elgin asks us to see humanity sharing in the same field of aliveness to discover how to live sustainably and harmoniously within the living universe

Challenging the Boundaries, 2007-01-01 *Challenging the Boundaries* seeks to transcend the limits of literary genres and national cultures exploring both old and new frontiers in language and literature from an interdisciplinary multifaceted and challenging perspective Selected from the pathbreaking Istanbul conference of the Poetics and Linguistics Association these papers treat topics ranging from contemporary neurobiology's insights into the sources of poetic creativity to the cultural theories of Michel Foucault and Hélène Cixous and their literary consequences from the films of the American director David Lynch to those of the Senegalese artist Djibril Diop Mambety from the work of the Turkish novelist Orhan Pamuk to James Joyce's *Ulysses* and the stories of Virginia Woolf This volume will be of particular interest to readers who might wish to become acquainted with the work of able young scholars from an exceptionally wide array of academic cultures and theoretical commitments The authors whose essays appear in *Challenging the Boundaries* reflect in their approaches and subjects both the breadth and depth of the international academic community *PALA Papers* is a series of volumes comprising essays selected and edited from presentations at the annual conferences of the Poetics and Linguistics Association an international body of scholars whose work focuses on the interdisciplinary nexus of linguistics discourse theory and literary analysis criticism and theory Each volume will present studies that provide models to scholars throughout the world for conducting their own research in this multidisciplinary paradigm on such topics as among many others close linguistic analysis of canonical literary works corpus based studies of literary narrative and the linguistic basis of
