**The Language Issue in the Teaching of Mathematics in South Africa** Lindiwe Tshuma, 2021-01-26 The book is the result of a five year project that culminated within the first three years in doctoral research interrogating language competency for meaningful mathematics instruction at upper primary level conducted at University of Stellenbosch in 2017 and this book in the succeeding two years The initial research project received countrywide coverage in several South African media outlets including Times Live and Radio 2000 *Languages, Identities and Intercultural Communication in South Africa and Beyond* Russell H Kaschula, 2021-08-23 African countries and South Africa in particular being multilingual and multicultural societies make for exciting sociolinguistic and applied language analysis in order to tease out the complex relationship between language and identity This book applies sociolinguistic theory as well as critical language awareness and translanguaging with its many facets to various communicative scenarios both on the continent and in South Africa in an accessible and practical way Africa lends itself to such sociolinguistic analysis concerning language identity and intercultural communication This book reflects consciously on the North South debate and the need for us to create our own ways of interpretation emanating from the South and speaking back to the North and on issues that pertain to the South including southern Africa Aspects such as language and power language planning policy and implementation culture prejudice social interaction translanguaging intercultural communication education gender and autoethnography are covered This is a valuable resource for students studying African sociolinguistics language and identity and applied language studies Anyone interested in the relationship between language and society on the African continent would also find the book easily accessible **Language Contact. Volume 2** Jeroen Darquennes, Joseph C. Salmons, Wim Vandebussche, 2025-04-21 Targeting a full range of students and scholars this volume provides a total of 50 chapters illustrating the linguistic dynamics and the dynamics of inter individual and societal language contact as well as the dynamics of multidisciplinary language contact studies Fueled by a wealth of data from a rich variety of contact situations its geographically balanced case studies are governed by the triangulation between a focus on language structure and change a sincere drive of sociopolitical and academic agency and the confrontation with an everyday reality that can be unkind to and ignorant of those two factors The volume clearly demonstrates the social relevance of our trade in a time burdened with ecolinguistic challenges *Tracking Changes in South African Reading Literacy Achievement*, 2023-09-04 Reading has been touted as the most crucial and lacking skill for young South African children This book delves into the issues and measurement considerations surrounding reading literacy using the Progress in International Reading Literacy Study PIRLS data The contributors to this volume explore the complexities of measuring reading literacy with an international survey curricula misalignment and how the PIRLS framework can inform teaching and learning Contributors are Caroline B ning Celeste Combrinck Peter Courtney Martin Gustafsson Nompumelelo L Mohohlwane Nangamso Mtsatse Elizabeth Pretorius Karen Roux Claudia Schreiner

Tobias Schroedler Nick Taylor Stephen Taylor Surette van Staden and Hans Wagemaker *The Politics and Governance of Basic Education* Brian Levy, Robert Cameron, Ursula Hoadley, Vinothan Naidoo, 2018-09-05 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations All over the world economic inclusion has risen to the top of the development discourse A well performing education system is central to achieving inclusive development but the challenge of improving educational outcomes has proven to be unexpectedly difficult Access to education has increased but quality remains low with weaknesses in governance comprising an important part of the explanation The Politics and Governance of Basic Education explores the balance between hierarchical and horizontal institutional arrangements for the public provision of basic education Using the vivid example of South Africa a country that had ambitious goals at the outset of its transition from apartheid to democracy it explores how the interaction of politics and institutions affects educational outcomes By examining lessons learned from how South Africa failed to achieve many of its goals it constructs an innovative alternative strategy for making process combining practical steps to achieve incremental gains to re orient the system towards learning

**Language in Epistemic Access** Caroline Kerfoot, Anne-Marie Simon-Vandenberg, 2018-07-26 This book focuses on how to address persistent linguistically structured inequalities in education primarily in relation to South African schools but also in conversation with Australian work and with resonances for other multilingual contexts around the world The book as a whole lays bare the tension between the commitment to multilingualism enshrined in the South African Constitution and language in education policy and the realities of the dominance of English and the virtual absence of indigenous African languages in current educational practices It suggests that dynamic plurilingual pedagogies can be allied with the explicit scaffolding of genre based pedagogies to help redress asymmetries in epistemic access and to re imagine policies pedagogies and practices more in tune with the realities of multilingual classrooms The contributions to this book offer complementary insights on routes to improving access to school knowledge especially for learners whose home language or language variety is different to that of teaching and learning at school All subscribe to similar ideologies which include the view that multilingualism should be seen as a resource rather than a problem in education Commentaries on these chapters highlight evidence based high impact educational responses and suggest that translanguaging and genre may well offer opportunities for students to expand their linguistic repertoires and to bridge epistemological differences between community and school This book was originally published as a special issue of Language and Education
